MEAT ANIMALS - FARM PRODUCTION AND INCOME, 1948-49

Farm production from meat animals in 1949 amounted to 41.1 billion pounds, 7 percent above the 1948 production of 38.5 billion pounds. The 1949 production was the first increase in the past 6 years, although still 5.5 billion pounds less than the record of 46.6 billion pounds in 1943. Production of cattle and calves was the second largest on record, while that for hogs was the fourth largest. Sheep and lamb production in 1949 was again reduced and was the smallest since 1923. The 1949 total production from all meat animals was 6 percent above the 1938-47 average.

Gross income (cash receipts plus value of home consumption) from meat animals amounted to 8.9 billion dollars in 1949, one billion less than in 1948. The gross income for each species, cattle and calves, hogs, and sheep and lambs, was smaller in 1949 than in 1948. The reduction is due entirely to lower prices since the total weight of cattle, calves and hogs marketed in 1949 was considerably larger than in 1948. In the case of sheep and lambs the 1949 total poundage marketed was lower and also the price received was slightly below that received in 1948. Cash receipts in 1949 amounted to 8.4 billion dollars, 10 percent below the record of 9.4 billion established last year. Cash receipts in 1949 for each species were below that for the previous year. All meat animals sold in 1949 brought an average price per hundred pounds liveweight of $19.31. This was $3.24 less than the record of $22.55 established in 1948. The combined average price in 1947 was $20.60.

Cattle and Calves: The estimated production of cattle and calves in 1949 was 19.4 billion pounds, an increase of 1.0 billion pounds above the 1948 production. The production in 1949 is the second highest on record, being exceeded only by the record 19.7 billion pounds in 1944. This situation resulted from an unusually good calf crop in 1949 and the marketing of both cattle and calves at record high average weights. Gross income in 1949 at 4.9 billion dollars was 429 million dollars less than the record of 5.3 billion dollars set in 1948. However, the gross income in 1949 was 2.4 billion dollars higher than the 10-year average. Total live weight of cattle and calves sold in 1949 amounted to 23.4 billion pounds, 3 percent above 1948 and the fourth highest on record, being exceeded by liveweight sold in the 3 years, 1945, 1946 and 1947. The 1949 poundage was 2.2 billion pounds above the 10-year average. The average price per hundred pounds live weight of cattle at $19.80 and calves at $22.70 were 11 percent and 7 percent, respectively, below the records established in 1948. However, the 1949 price is the second highest on record for both cattle and calves. The cost per hundred pounds and total cost of inshipments were also below the record cost in 1948.

Hogs: The estimated production of hogs in 1949 was 20.4 billion pounds, about 9 percent or 1.6 billion pounds higher than in 1948. This was a record peacetime output, and was exceeded only by production in three of the war years. The 1949 production exceeds the 10-year average by 1.4 billion pounds. Gross income in 1949 amounted to 3.7 billion dollars, 651 million dollars or 15 percent less than in 1948 and 21 percent less than the record 4.6 billion dollars in 1947. The 10-year average gross income is 2.4 billion dollars. Cash receipts totaled 3.2 billion dollars, ½ billion less than in 1948. Total live weight of hog marketings in 1949 was 17.2 billion pounds, 11 percent larger than in 1948. The average price per hundred pounds live weight received by producers at $18.10 was $5.00 less than in 1948 and $6.00 or 25 percent below the record price of $24.10 received in 1947.

1/ Balance sheet estimates. Total of Marketings, farm slaughter, deaths and on hand end of year equals total of calf crop, inshipments, and on hand beginning of year.

2/ Excludes interfarm sales.

3/ Adjustments made for inshipments and changes in inventory.

4/ Includes receipts from marketings and from sales of farm slaughtered meat.

1/ Balance sheet estimates. Total of marketings, farm slaughter, deaths and on hand end of year equals total of calf crop, inshipments, and on hand beginning of year.
2/ Preliminary.
3/ Excludes interfarm sales.
4/ Adjustments made for inshipments and changes in inventory.
5/ Includes receipts from marketings and from sales of farm slaughtered meat.

1/ Balance sheet estimates. Total of marketings, farm slaughter, deaths and on hand end of year equals total of pig crops, inshipments and on hand beginning of year.
2/ Excludes interfarm sales.
3/ Adjustments made for inshipments and changes in inventory
4/ Includes receipts from marketings and from sales of farm slaughtered meat.

UNITED STATES DEPARTMENT OF AGRICULTURE
BUREAU OF AGRICULTURAL ECONOMICS
CROP REPORTING BOARD
WASHINGTON, D. C.

MEAT ANIMALS - FARM PRODUCTION AND INCOME, 1948-49
April 27, 1950

E R R A T A

The following changes should be made in the table titled "Hogs: Inventory Numbers, Pig Crops, and Disposition, Production and Income, 1949." (All figures are in thousands of dollars)

State:

New York:

a. Value of Home Consumption

Change: From 590 : To 5,897

b. Gross Income

Change: From 12,102 : To 17,409

United States:

a. Value of Home Consumption

Change: From 431,229 : To 436,536

b. Gross Income

Change: From 3,656,717 : To 3,662,024

1/ Balance sheet estimates. Total of marketings, farm slaughter, deaths, and on hand end of year equals total of lamb crop inshipments and on hand beginning of year.

2/ Preliminary.

3/ Excludes interfarm sales.

4/ Adjustments made for inshipments and changes in inventory.

5/ Includes receipts from marketings and from sales of farm slaughtered meat.

Sheep and Lambs: Production of sheep and lambs in 1949 was estimated to be 1.3 billion pounds, 6 percent below the production of 1.4 billion pounds in 1948. Production of sheep and lambs has dropped for 7 consecutive years and is the smallest total since 1923. The average price received by producers was $9.29 for sheep and $22.40 for lambs, both only slightly below the price received in 1948. Gross income in 1949 amounted to 360 million dollars, 59 million or 14 percent less than in the previous year. Cash receipts in 1949 were also lower by 14 percent. Marketings in 1949, at 1.8 billion pounds, were 14 percent below the previous year.
