This Week's Chicken Feature Highlights

The volume of chicken featured decreased as we head into the last of the month. Incentives by retailers to move extra product remains strong for the second consecutive week. Whole birds are down significantly, prices are lower with the exception of Cornish. White meat parts are also down but are well represented by bulk pack b/s breast and split breast, asking prices are lower. Wing ads are up with most activity over in the deli section. Dark parts are also down as thighs and drums and tray pack leg quarters take the biggest hits. B/S thighs are more evenly distributed. Bagged leg quarters are enjoying a good promotion at slightly higher prices. IQF parts decrease but wings hold their ground in preparation for Super Bowl in the weeks to come. Prepared foods maintain a steady presence in the deli case, offering a variety of choices led by fried/baked 8 piece and finger foods. Specialty items are down slightly this week while organics return to normal.

All report information gathered from publicly available sources including store circulars, newspaper ads, and retailer websites.

^{1/} **Feature Rate:** the amount of sampled stores advertising any reported chicken item during the current week, expressed as a percentage of the total sample. ^{2/} **Activity Index:** a measure of the absolute frequency of feature activity equal to the total number of stores for each advertised chicken item (e.g., a retailer with 100 outlets featuring 3 chicken items has an activity index of 300). ^{3/} **Stores/Avg:** the total number of advertising outlets and the weighted average price weighted by the respective number of outlets. ^{4/} **Special Rate:** the percentage of sampled stores with a no-price promotion (e.g., buy 1, get 1 free, etc.)
