Direct Hay Weighted Average Report for week ending 9/25/2020

Volume		
This Week	Last Reported ()	Last Year

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

The official arrival of Fall came this week. Corn harvest is rolling along now with some farmers running full seam, a few reports of cutting beans but not many. Those in the fields are glad to not be dealing with mud but on the cattle side of the spectrum many would like to see some rain. Drought areas in the southwest continue to worsen each week at a time when normally grass is growing and producers are stockpiling pasture for post frost grazing. Hay movement continues to be limited, demand is light, supplies are heavy and prices are steady to firm. The Missouri Department of Agriculture has a hay directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/>

N/A		
Hay (Conventional)		

Alfalfa - Supreme (Ask/Per Ton)

Qty	Price Range	Wtd Avg	Freight/Use	Description	Crop Age
Medium Square 3x3	200.00-250.00		F.O.B.
