Direct Hay Weighted Average Report for week ending 1/22/2021

Volume		
This Week	Last Reported ( )	Last Year

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

A fairly decent week around the state a bit of winter weather did pass through late last week but was short lived followed by a warm up late this week. Most of the state is in better shape as far as moisture goes now there is a swath in the north east considered abnormally dry but overall conditions are much better than earlier in the winter. Farmers are feeding a fair amount of hay but lack of extended cold snow cover is helping overall hay requirements as cattle aren't having to eat as much to keep warm. The supply of hay is moderate, demand is moderate and prices are mostly steady. The Missouri Department of Agriculture has a hay directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/>

N/A		
Hay (Conventional)		

### Alfalfa - Supreme (Ask/Per Ton)

Qty	Price Range	Wtd Avg	Freight/Use	Description	Crop Age
Medium Square 3x3	200.00-250.00		F.O.B.
