Direct Hay Weighted Average Report for week ending 8/14/2020

Volume		
This Week	Last Reported ( )	Last Year

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

It felt more like August around the state this week, heat came back making many talk about how much nicer the weather was last week. At different times storms formed in several areas around the state bringing very heavy rain falls to spots. No one is about to complain about rain in August but flash flooding is never good. Fortunately the state was spared much of the destruction that took place across much of Iowa. Haying is still taking place although many are done for the year and have put equipment away. Hay movement remains slow although listings of hay being offered for sale grows each week. Hay prices are steady, supply heavy and demand is light. The Missouri Department of Agriculture has a hay directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/>

N/A						
Hay (Conventional)						

**Alfalfa - Supreme (Ask/Per Ton)**

	<u>Qty</u>	<u>Price Range</u>	<u>Wtd Avg</u>	<u>Freight/Use</u>	<u>Description</u>	<u>Crop Age</u>
