Direct Hay Weighted Average Report for week ending 10/30/2020

Volume		
	This Week	Last Reported ( )

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

A dose of winter arrived this week with much colder temperatures and a winter mix of moisture. Depending on the area everything from heavy rain to ice and snow was present in the state. We did however fare much better than neighboring states. Field work was put on hold as fields have gotten soft as it hasn't been cold enough to freeze the ground yet. Hay movement continues to be limited, demand is light, supplies are moderate to heavy and prices are steady. The Missouri Department of Agriculture has a hay directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/>
