Direct Hay Weighted Average Report for week ending 10/23/2020

Volume		
This Week	Last Reported ()	Last Year

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Much of the state finally got some moisture this past week. It is too late to do much for pastures but should help winter wheat and stock water supplies. Grain harvest has been going along at a good pace but was put on hold because of rains. Weather delays are never good but most farmers are tired and likely ready for a shop day to tend to equipment and have a break from the long hours. Hay movement continues to be limited, demand is light, supplies are moderate to heavy and prices are steady. The Missouri Department of Agriculture has a hay directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/>

N/A		
Hay (Conventional)		

Alfalfa - Supreme (Ask/Per Ton)

Qty	Price Range	Wtd Avg	Freight/Use	Description	Crop Age
Medium Square 3x3	200.00-250.00		F.O.B.
