Direct Hay Weighted Average Report for week ending 9/18/2020

Volume		
This Week	Last Reported ()	Last Year

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

A near repeat of last week, weather continues to see big temperature swings as the seasons begin to transition to fall. Corn harvest is underway and getting started now. Crops however do vary quite a bit and some are still a ways from harvest, some beans are dropping leaves while others haven't even started to turn yet. Areas in the southwest are still lacking moisture and very dry. There has been no regrowth of grass and without some quick turnaround feeding is likely to become much more common. Hay movement continues to be limited, demand is light and supplies are heavy. The Missouri Department of Agriculture has a hay directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/>

N/A		
Hay (Conventional)		

Alfalfa - Supreme (Ask/Per Ton)

Qty	Price Range	Wtd Avg	Freight/Use	Description	Crop Age
Medium Square 3x3	180.00-225.00		F.O.B.
