Direct Hay Weighted Average Report for week ending 3/5/2021

Volume		
	This Week	Last Reported ()

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Weather has many feeling like spring as arrived with songs of peeper frogs in the evening and enough sun to bring on a sunburn in the day. Fertilizer buggies are soon to be high demand and short supply. Filling them however will come with some serious sticker shock for those producers that didn't prepay for their needs this year as prices have climbed sharply since the first of the year. Prices are steady and demand is moderate. The Missouri Department of Agriculture has a hay directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/>
