Floriculture Crops
1994 Summary

April 1995
Sp Cr 6-1(95)

ALBERT R. MANN
LIBRARY
MAY 17 1995
ITHACA, NY 14853

Wholesale Value of Sales up 5 Percent

The value of floriculture crops at wholesale reached $3.23 billion in 1994, a 5 percent jump over the previous year and 7 percent above the 1992 level. That output came from all floriculture crops produced by growers in the 36 surveyed states with gross sales over the $10,000 minimum level. California remained the number one producing state with $684 million of production, 21 percent of the 36 state total. Florida made a significant jump in production with a 13 percent increase over 1993, accounting for 19 percent of the total value. Florida's resurgence was the result of better prices, recovery from previous year weather damage, and also recovery from experiences with chemical damages. Growers over the $100,000 level of sales recorded a 6 percent increase of the wholesale value of their production at $2.98 billion. These large operations continue to demonstrate the largest concentration of crop value. This group accounts for 45 percent of the growers but provides 92 percent of the value for the items surveyed.

Covered area in production increased less than one-half percent in 1994 at a total of 812 million square feet. Greenhouse area amounted to 465 million square feet, a decrease of about 1 percent from the year before and accounted for 57 percent of the total covered area. Shade and temporary cover space increased 2 percent to 347 million square feet. Glass greenhouse space, 76.1 million square feet and 16 percent of the total greenhouse area, actually fell 5 percent from the glass area in production in 1993. Film and plastic covered structures accounted for 60 percent of all greenhouse covers, 279 million feet, and experienced a 5 percent increase over the previous year. Open ground in production was off 5 percent from a year earlier at 27,424-acres.

The number of growers fell 3 percent to 10,137 in 1994. That total is the lowest since the survey expanded to 36 states in 1992. The 1993 number of 10,463 is the highest over that same three year period. There was just a slight decline in growers over the $100,000 level as that group decreased to 4,570 growers. The shift in the over $100,000 group occurred by losing 78 growers between $100,000 and $499,999 while gaining 63 in the $500,000 or more group. Operations with sales below the $100,000 mark continue to lose the most producers. The entire range between $10,000 and $99,999 fell 5 percent from 1993 with a net loss of 311 growers. All four of the breakouts in this range recorded declines. The biggest reduction was in the smallest size group as it lost 128 growers for a 9 percent decrease.

The use of hired workers remained rather steady across all operations. Just over 8,300 operations employed hired workers in 1994 compared with slightly over 8,400 in 1993. Overall, 82 percent of the operations used some hired workers during the year. The percentage of operations with hired workers ranged from the low of 58 percent in the $10,000 to $19,999 size group to the high of 95 percent in the size over $500,000. The percentage of operations hiring workers climbed steadily from the smallest to largest operations. The average number of workers used during peak times fell slightly in 1994 across operations of all sizes.

Bedding and garden plants continue to provide the greatest value to operations over $100,000. Of the 4,570 operations, 3,181 produced some type of bedding and garden items. The value of that category totaled $1.28 billion, 9 percent above the $1.17 billion value in 1993. They accounted for 43 percent of the total wholesale value of reported crops. Of the crops for which detailed data are gathered, potted geraniums (from cuttings and seed) returned the highest wholesale value, at $129 million. That total is 4 percent above the $124 million in 1993. Of plants sold in flats, bedding impatiens returned the highest wholesale value, at a total of $81.9 million. Eighty-seven percent of the 13.3 million flats produced were sold at wholesale with an average price of $6.15 per flat. Vegetable type bedding flats were the second most valuable group with a total of $65.1 million. About 9.3 million flats were sold with 84 percent going wholesale at an average of $7.03 per flat, up 7 cents from a year earlier.

The wholesale value of domestically produced cut flowers rebounded 4 percent to $440 million in 1994. However it is still 4 percent below the $458 million value of 1992 cut flowers. Carnations were off 13 percent from 1993 and 25 percent below 1992. Chrysanthemums declined 2 percent from the previous year and roses decreased 6 percent. Gladioli recorded a 16 percent improvement over 1993 and all other cut flowers also experienced a 16 percent recovery.

Potted flowering plants, the second largest commodity group, provided 22 percent of the total wholesale value of crops produced at $654 million. They were produced by 2,576 operations. Poinsettias continue to contribute the most value to the group at a total of $206 million which is 3 percent above the prior year. The number sold was up 1 percent with a slightly higher price. The average price for poinsettias under in 5 inch pots actually fell 14 cents but the average for larger plants averaged 11 cents higher.

The net value of foliage plant production recorded a strong increase in 1994, primarily on the strength of a 34 percent increase in Florida. The category totaled $487 million, 17 percent better than the $417 million value for 1993. There were 293 fewer producers of foliage in 1994.

Cut cultivated greens totaled $119 million of wholesale value in 1994. That level is 3 percent above 1993 and 7 percent above 1992. Florida continues to dominate this area of production with 82 percent of the total. That contribution slipped 3 points from the previous year which were picked up by California.

Pages 104-105 of this report presents several tables of revisions for Other Potted Flowering Plants from 1990 to 1993. The tables that included this category in those years are reproduced with the new numbers for the state that changed and the new cumulative totals.

For information call Linda McMillan at (202) 720-4215. Office hours are 8:00 a.m. to 4:30 p.m. ET.

Growers and Wholesale Value of Floriculture Crops
United States, 1992 - 1994

1/ Wholesale value of sales as reported by growers with $100,000 or more in sales of floriculture crops plus a calculated wholesale value of sales for growers with sales below $100,000. The value of sales for growers below the $100,000 level were estimated by multiplying the number of growers in each size group by the mid-point of each dollar value range.

Survey Procedures and Definitions

Survey Procedures

The floriculture statistics presented in this publication are compiled from interviews of all known growers of floriculture crops in 36 selected states. Growers must have annual gross sales of all floriculture crops exceeding $10,000 to be included in this survey. Data collection began about January 1 and extended through February. A copy of the questionnaire used is included in the back of this report.

The data in this report are comparable to data included in **"Floriculture Crops"** summaries from 1991 to the present. Beginning with the 1991 summary, details for individual crops on area in production, quantity sold, price, and value were collected only from growers whose gross sales exceeded $100,000. However, the summary tables for Growers and Growing Area, and Growers by Size of Reported Gross Sales include all growers with sales of $10,000 or more for these years. One point of variation occurs between the 1991 summary and later years. Eight states were added to the estimating program in 1992. Prior to 1992, 28 states were surveyed to collect floriculture information. Data for 1992 were computed to show 36 state totals and 28 state totals to enable some comparisons to be made between 1991 and 1992 data. Users of these data should consider the differences when comparing data from 1991-94 with data in earlier reports.

This report contains breakouts for five new crops. Cyclamens and Kalanchoes were added to the group of Potted Flowering Plants. Impatiens, New Guinea Impatiens, and Petunias were added to Bedding/Garden Flats, Baskets and Pots. With the separation of these items, the tables in earlier reports for Other Flowering and Foliar Type Bedding Plant Flats, Other Potted Flowering and Foliar Type Bedding Plants, and Flowering Hanging Baskets will not be comparable. Previously, these newly itemized flowers were included in the "All Other" category. Beginning with this report, they are excluded.

Two additional tables are presented in this report. One new summary table is included to show growers and growing area by type of cover for operations with gross sales exceeding the $100,000 level. A special table is also included showing revisions to some New York, 28 and 36 State totals for 1990 to 1993.

Survey Definitions

Floriculture Crop: Any item considered in the category of bedding/garden plants, cut cultivated greens, cut flowers, flowering potted plants, or foliage plants. Data for flowering potted plants and foliage plants represent only items intended for indoor or patio use. Refer to the copy of the questionnaire in the back of this report for specific examples.

Commercial Grower: Any operation which produces any commodity included above and whose gross sales total $10,000 or more during the calendar year.

Area in Production (by crop): The gross area used, including walkways and aisles. All area used to grow a crop is counted, including area under glass, plastic, cloth, lath, and outdoors. The area used for each filling is included if more than one of the same crop is produced during the year. Area devoted to potted foliage and cut cultivated greens is counted only once even though some of the area may be refilled with additional plants.

Growing Area (Total): Growing area, by type of cover, includes the gross square feet of physical space available to grow all nursery and floriculture crops produced by the operations surveyed. It is not limited to actual area used and does not include multiple uses of the same area.

Quantity Sold: Sales represent both retail and wholesale quantities sold in the calendar year shown. Flowers, plants, or materials purchased from others for immediate resale are excluded from the totals in this report.

Expanded Wholesale Value: Value of all crops grown, at wholesale, for all growers above $10,000. This figure is calculated using two parts. One part uses survey totals of wholesale value of sales as reported by growers with $100,000 or more of sales in floriculture crops. The second part is a calculated value for growers which fall between the $10,000 minimum and the $100,000 level. The value is derived by multiplying the number of growers in each range of sales by the dollar value of the midpoint of each range. The two components are then summed to provide state and National totals.

Value of Sales at Wholesale: The value of all crops, except potted foliage, are on a gross wholesale basis before deductions for sales commissions, transportation charges, or other similar deductions. The value shown is an equivalent value of all sales at a wholesale price. It is derived by multiplying the average wholesale price by the total quantity sold. The value of sales for potted foliage plants is on a net sales basis. This value is determined by subtracting the reported cost of plant materials purchased from the value of all retail and wholesale sales.

The data in this report for all bedding plants, cut cultivated greens, cut flowers, flowering potted plants, and foliage are summarized only from growers with $100,000 or more in sales, during 1994. The data summarized in tables showing grower numbers, hired workers, and growing area represent all growers having sales of $10,000 or more. The table showing selected Hawaiian crops includes data for all operations with sales at, or above, the $10,000 level.

O.M.B. Number 0535-0093
Approval Expires 11/30/96
QID 060099-DC
Project Code 148

Dear Reporter:

The Department of Agriculture is conducting its annual Floriculture Survey to collect data on 1994 production. Your cooperation is essential. Completing this survey may help you identify areas of profit and plan for the new growing season. It also will help us accurately estimate floriculture production in your State, and nationally. Your response is voluntary. The information you furnish also will be kept confidential, as required by law. Please return this questionnaire by **January 15** in the enclosed postage-paid envelope. Thank you.

Sincerely,

Rich Allen

Richard D. Allen, Chairperson
Agricultural Statistics Board

Please make corrections to name, address, and Zip Code, if necessary.

INTRODUCTION

1. Did this operation produce any cut flowers, potted flowering plants, potted foliage plants, flowering or foliage hanging baskets, bedding plants, or cut cultivated florist greens during **1994**? (*Include plants purchased from others and finished by you.*)

   ☐ **YES** ☐ **NO** - ***Please complete Questions 4 and 5 on the back page and return.***

2. Did retail and wholesale sales of floriculture crops (the crops produced or finished by this operation) total $10,000 or more during **1994**?

   ☐ **YES** ☐ **NO** - a. Will retail and wholesale sales for **1995** total $10,000 or more?

   ☐ Yes ☐ No → ***Please turn to page 7, and complete Sections 7 and 8.***

   b. Were sales $100,000 or more?

   ☐ **Yes** - ***Please review the instructions below and complete the entire questionnaire.***

   ☐ **No** - ***Please turn to page 7 and complete Sections 6, 7 and 8 only.***

451

INSTRUCTIONS

1. **Include** only flowers and plants finished by this operation. Finished flowers and plants purchased by this operation from wholesalers or other growers for immediate resale will be included in their reports.
2. Except for foliage, **exclude** all prefinished plants and plant propagative material (such as cuttings, liners, plug seedlings, and tissue culture liners) sold to others.
3. **Include** all production, whether grown under glass, fiberglass and other rigid plastics, film plastic, shade cloth, natural shade, other shade, and outdoor production.
4. Value of sales should be the value received before deductions for commissions and transportation.
5. If exact figures are not available for any items, please provide your best estimate.
6. How to report area in production for 1994:
   - ***All crops:*** The area used to produce each crop should be the total area, including walkways and aisles.
   - ***All crops except potted foliage plants and cut cultivated greens:*** If the same area was refilled with different crops during the year, report the square feet for each crop. If refilled with the same crop, report the square feet for each filling. This is to obtain the total square footage of production for each crop turn.
   - ***Potted foliage plants and cut cultivated greens:*** If the same area was refilled with foliage or cut cultivated greens during the year, report the area only once. If refilled to crops other than foliage or cut cultivated greens, report the area for each crop.

SECTION 1: CUT FLOWERS

Did this operation produce for sale any cut flowers (including those for dried flowers) during 1994?

☐ YES - *Please report production below.* ☐ NO - *Go to Section 2.*

CUT FLOWERS	Total Plants Grown in 1994 *Number*	Total Area in Production in 1994	Quantity Grown and Sold in 1994		Total Value of Wholesale Sales of Cut Flowers in 1994 *Dollars*	Total Area Intended for Production in 1995

Zinnia

SECTION 2: POTTED FLOWERING PLANTS

Did this operation finish and sell any potted flowering plants during 1994?

☐ **YES** - *Please report production below.* ☐ **NO** - *Go to Section 3.*

INCLUDE: - Only those plants finished and sold for indoor or patio use.
- Area devoted to production of each potted plant listed.
- Square footage for each crop turn.

EXCLUDE: - Finished plants purchased from others and resold.
- Bedding plants (to be reported in Section 3.)
- Geraniums (to be reported in Section 3.)
- Potted blooming annuals and hardy/garden mums (to be reported in Section 3.)
- Flowering hanging baskets (to be reported in Section 3.)

NOTE: Area in production should be calculated by using final pot spacing, and be counted for each crop turn.

POTTED FLOWERING PLANTS	Total Area in Production in 1994 (Count the square footage for each crop turn)	Quantity Grown and Sold in 1994				Total Value of Wholesale Sales of Potted Flowering Plants in 1994		Intended Production of Potted Flowering Plants in 1995

SECTION 3: BEDDING / GARDEN PLANTS (*Flats, Baskets & Pots*)

Did this operation finish and sell any bedding / garden plants during 1994?

☐ YES - ***Please report production below.*** ☐ NO - ***Go to Section 4.***

INCLUDE:
- All bedding/garden plants finished and sold by this operation not used in commercial vegetable production.
- Annuals and herbaceous perennials grown as bedding plants.
- Flats using a common insert (for example: 606, 1204, 1206, 1801, 1803, etc.)
- Pots produced as separate units, and pots which are produced in shuttle trays, carrier flats, or flats of individual pots.
- Pots of annuals and mixed annuals including color bowls, strawberry jars, combination planters, etc.

EXCLUDE:
- Finished bedding/garden plants purchased from others.
- Prefinished plants sold to others for finishing.
- Potted florist Chrysanthemums that are to be reported in Section 2.
- Transplants used in commercial vegetable production.
- Foliage plants reported in Section 4.

Other Flowering and Foliar Type Bedding Plants:

Ageratum
Alyssum
Begonia
Coleus
Dianthus
Dracaena spikes
Dusty Miller
Fuchsia
Gazania
Marigold
Pansy
Perennials, herbaceous
Portulaca
Salvia
Snapdragon
Verbena
Vinca (Catharanthus roseus)
Vinca vines (Vinca major)

Vegetable Type Bedding Plants:

Broccoli
Cabbage
Cauliflower
Egg plant
Herbs
Other crucifers
Pepper, sweet or hot
Tomato

SECTION 4: FOLIAGE PLANTS FOR INDOOR OR PATIO USE (*Pots and Baskets*)

Did this operation sell any potted foliage plants or foliage hanging baskets during 1994 for indoor or patio use?

☐ YES - *Please report production below.* ☐ NO - *Go to Section 5 below.*

INCLUDE: - Plants grown primarily for their foliage and utilized for interior decoration or patio purposes--- plants may have flowers which are secondary compared with foliage features.
- Ivy, cacti, ferns, palms, and succulents, as well as indoor/patio shrubs, trees and vines finished by you.

EXCLUDE: - Hanging baskets reported in Section 3.
- Foliage plants purchased from others, but grown by you for less than 4 weeks before resale.

POTTED FOLIAGE	Total Area in Foliage Production in 1994 *Square Feet*	Total Value of All Retail and Wholesale Sales of Potted Foliage Plants Grown or "Grown On" in 1994 *Dollars*	Cost of Unfinished Foliage Plants and Rooted Foliage Cuttings Purchased From Other Growers for "Growing-On" in 1994 *Dollars*	Total Value of Wholesale Sales of Potted Foliage Grown or "Grown On" in 1994 *Dollars*	Total Area Intended for Potted Foliage Production in 1995 *Square Feet*

* A partial list of **Foliage Plants** includes:

Aglaonema
Cacti and succulents
Dieffenbachia
Dracaena
Epipremnum (Pothos)
Ferns (potted)
Ficus
Hedera (ivy)
Palms (potted)
Philodendron
Schefflera (Brassaia or Schefflera)
Spathiphyllum
Syngonium (Nephthytis)

SECTION 5: CUT CULTIVATED GREENS

Did this operation produce and sell any cut cultivated greens during 1994?

☐ YES - *Please report production below.* ☐ NO - *Go to Section 6.*

INCLUDE: Quantity grown and sold for export.

CUT CULTIVATED GREENS	Total Area in Cut Greens Production in 1994 *Acres*	Quantity Grown and Sold in 1994		Total Value of Wholesale Sales of Cut Cultivated Greens in 1994 *Dollars*	Total Area Intended for Production in 1995 *Acres*
		Retail	Wholesale		
	Nearest 10th	*Bunches*		177	*Nearest 10th*
LEATHERLEAF FERNS	174 .____	175	176		178 .____
	Nearest 10th	*% of gross value of sales of other cut greens (Cells 180 + 181 = 100%)*		182	*Nearest 10th*
		Retail	Wholesale		
ALL OTHER CUT CULTIVATED GREENS *	179 .____	180 %	181 %		183 .____

* A partial list of **Other Cut Cultivated Greens** includes:

Asparagus
Boxwood
Coniferous greens
Cordyline/Ti
Hedera/Ivy
Holly
Huckleberry/Salal
Oregon/Sword ferns
Pittosporum
Smilax

SECTION 6: AREA USED FOR PRODUCTION

During 1994, how much greenhouse, other covered space, and outdoor land area was used for the production of floriculture crops grown by this operation? [*This is your operation area without counting crop turns.*]

INCLUDE: - Area for production of cut flowers, flowering and foliage plants, bedding/garden plants, and cultivated florist greens.
- Aisles, walkways, and other production areas.

EXCLUDE: - Non-floricultural production areas, such as fruit, vegetable, sod farms and nurseries.
- Non-agricultural production areas, such as roads and parking areas.
- Production areas used exclusively to produce commercial vegetables.

NOTE: The outer roof covering determines the type of greenhouse covering classification. For example, a greenhouse with a glass roof having film polyethylene insulation and fiberglass sides would be considered a glass greenhouse.

1. Glass greenhouses	Square feet	247
2. Rigid plastic greenhouses (acrylics, polycarbonates, fiberglass and other rigid plastics)	Square feet	184
3. Film plastic greenhouses (single or multi-layer poly)	Square feet	185
4. Shade houses (slat, saran, and other covers)	Square feet	186
5. Open ground *(including natural shade)* for floriculture production.....	Acres *(nearest 10th)*	187 . ___

SECTION 7 - GROSS VALUE OF SALES, AND NUMBER OF HIRED LABOR

1. What was the gross value of sales for the reported floriculture crops in 1994?

1,000 to 9,999 dollars.....	1	☐
10,000 to 19,999 dollars	2	☐
20,000 to 39,999 dollars	3	☐
40,000 to 49,999 dollars	4	☐
50,000 to 99,999 dollars.....	5	☐
100,000 to 249,999 dollars.....	6	☐
250,000 to 499,999 dollars.....	7	☐
500,000 to 999,999 dollars.....	8	☐
1,000,000 dollars or more.....	9	☐

(Check sales group and enter code) → 899

2. What was the peak number of hired workers, including paid family members, on the payroll on any one day during 1994? (*Exclude workers employed only for retail operation.*) 898

SECTION 8: CONCLUSION

1. Are you involved in any additional floriculture or greenhouse operations in this State?

   ☐ **YES** Please list name and address of operation(s) in this State:

   _____

   _____

   _____

   ☐ **NO**

2. Does this operation operate any floriculture farms or greenhouses in any other State(s)?

   ☐ **YES** Please list name and address of operation(s) in other State(s):

   _____

   _____

   _____

   ☐ **NO**

3. Are your Social Security Number (SSN) and Federal Employer Identification Number (EIN) printed correctly on the mailing label?

   ☐ **YES** - ***Go to the next item.***

   ☐ **NO** - To assist in identifying duplication among our lists of floriculture operators, please report your Social Security Number (SSN). If your operation has a Federal or State Employer Identification Number (EIN), please provide them. (Disclosure of your SSN is voluntary and is collected under the general authority of Title 7, Section 2204, of the U.S. Code.)

Floriculture Operator Social Security No.	501 ___ - ___ - ____
Federal Employer I.D. No.	502 ___ - _____
State Employer I.D. No.	503 ___ - ____

4. Would you like to receive a copy of the survey results?

   ☐ **YES = 1** ☐ **NO = 3**
