Chickens and Eggs
2018 Summary

March 2019
Summary

United States Average Number of Layers Up 3 Percent: Layer numbers during 2018 averaged 391 million, up 3 percent from the year earlier. The annual average production per layer on hand in 2018 was 279 eggs, down 1 percent from 2017.

United States Egg Production up 2 percent: Egg production during the year ending November 30, 2018 totaled 109 billion eggs, up 2 percent from 2017. Table egg production, at 95.3 billion eggs, was up 3 percent from the previous year. Hatching egg production, at 13.9 billion eggs, was up 2 percent from 2017.

United States December 1 Chicken Inventory Numbers: The total number of chickens on hand on December 1, 2018 (excluding commercial broilers) was 528 million birds, up 3 percent from last year.

United States Total Value: The total value of all chickens on December 1, 2018 was $2.28 billion, up 7 percent from December 1, 2017. The average value increased from $4.16 per bird on December 1, 2017, to $4.33 per bird on December 1, 2018.
### Annual Average Layers, Eggs per Layer, and Total Egg Production – States and United States: 2017 and 2018

1 Alaska, Arizona, Connecticut, Delaware, Hawaii, Idaho, Kansas, Maine, New Hampshire, New Jersey, New Mexico, Nevada, North Dakota, Rhode Island, and Wyoming combined to avoid disclosing individual operations.
Statistical Methodology

Survey Procedures: Primary data for the Chickens and Eggs report are from monthly questionnaires sent to producers. An attempt is made to collect information for layer and egg estimates from each known contractor and independent producer who has at least 30,000 table egg layers, flocks of hatchery supply layers, or pullet only operations with at least 500 pullets. Coverage for operations with less than 30,000 table egg layers are estimated each month based on Agricultural Census data and data reported in December. Approximately 500 contractors, independent egg producers, and pullet only operations are contacted each month.

Estimating Procedures: Sound statistical methodology is employed to derive estimates from the reported data. All data are analyzed for unusual values. Data from each operation are compared to their own past operating profile and to trends from similar operations. Data for missing operations are estimated based on similar operations or historical data. NASS field offices prepare these estimates by using a combination of survey indications and historic trends. Individual State estimates are reviewed by the Agricultural Statistics Board for reasonableness.

Revision Policy: The previous 24 month's estimates are subject to revision if late reports or corrected data indicates a different level. Estimates will also be reviewed after data from the Department of Agriculture five-year Census of Agriculture are available. No revisions will be made after that date.

Reliability: Estimates are based on a census of all known contractors and independent producers who have at least 30,000 table egg layers, flocks of hatchery supply layers, and pullet only operations with at least 500 pullets and therefore, have no sampling error. However, estimates are subject to errors such as omission, duplication, and mistakes in reporting, recording, and processing the data. While these errors cannot be measured directly, they are minimized through strict quality controls in the data collection process and a careful review of all reported data for consistency and reasonableness.

Terms and Definitions of Chickens and Eggs Estimates

All Layers includes both table egg and hatching egg flocks regardless of size.

Molted Layers is the same data series as the previously published Forced Molt Layers. Nomenclature changed as of January 2015.

Information Contacts

Listed below are the commodity specialists in the Livestock Branch of the National Agricultural Statistics Service to contact for additional information. E-mail inquiries may be sent to nass@nass.usda.gov

Travis Averill, Chief, Livestock Branch ................................................................. (202) 720-3570

Tony Dorn, Head, Poultry and Specialty Commodities Section .................................................. (202) 690-3223
    Holly Brenize – Poultry Slaughter ..................................................................................... (202) 720-0585
    Alissa Cowell-Mytar – Cold Storage, Capacity of Refrigerated Warehouses .................. (202) 720-4751
    Liana Cuffman – Catfish and Trout, Egg Products, Mink, Census of Aquaculture ........ (202) 720-8784
    Adam Peters – Broiler Hatchery, Chicken Hatchery ......................................................... (202) 720-6147
    Kim Linonis – Layers, Eggs .............................................................................................. (202) 690-3676
    Fatema Haque – Turkey Hatchery, Turkeys Raised ............................................................ (202) 720-3244
    Erica Sadler – Cost of Pollination, Honey, Honey Bee Colonies ...................................... (202) 720-6147
Access to NASS Reports

For your convenience, you may access NASS reports and products the following ways:

- All reports are available electronically, at no cost, on the NASS web site: [www.nass.usda.gov](http://www.nass.usda.gov)

- Both national and state specific reports are available via a free e-mail subscription. To set-up this free subscription, visit [www.nass.usda.gov](http://www.nass.usda.gov) and click on “National” or “State” in upper right corner above “search” box to create an account and select the reports you would like to receive.

- Cornell’s Mann Library has launched a new website housing NASS’s and other agency’s archived reports. The new website, [https://usda.library.cornell.edu](https://usda.library.cornell.edu). All email subscriptions containing reports will be sent from the new website, [https://usda.library.cornell.edu](https://usda.library.cornell.edu). To continue receiving the reports via e-mail, you will have to go to the new website, create a new account and re-subscribe to the reports. If you need instructions to set up an account or subscribe, they are located at: [https://usda.library.cornell.edu/help](https://usda.library.cornell.edu/help). You should whitelist notifications@usda-esmis.library.cornell.edu in your email client to avoid the emails going into spam/junk folders.

For more information on NASS surveys and reports, call the NASS Agricultural Statistics Hotline at (800) 727-9540, 7:30 a.m. to 4:00 p.m. ET, or e-mail: nass@nass.usda.gov.

The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers, employees, and applicants for employment on the basis of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.)

If you wish to file a Civil Rights program complaint of discrimination, complete the [USDA Program Discrimination Complaint Form](http://www.ascr.usda.gov/filing-program-discrimination-complaint-usda-customer) (PDF), found online at [www.ascr.usda.gov/filing-program-discrimination-complaint-usda-customer](http://www.ascr.usda.gov/filing-program-discrimination-complaint-usda-customer), or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at [program.intake@usda.gov](mailto:program.intake@usda.gov).
