Introduction

Vegetables: Final Estimates by States, 2003-2007, U.S. Department of Agriculture, Agricultural Statistics Board, National Agricultural Statistics Service, Statistical Bulletin No. 1014.

Introduction: This bulletin presents final estimates, including revisions made by the Agricultural Statistics Board (ASB), for the production years 2003 through 2007. Acreage, yield, production, price, and value data were published during calendar years 2004-2008 in periodic ASB reports. Data included in this publication provide a historic record and a benchmark for current estimates.

Procedures: Revisions were made after a thorough review of the original survey data and all additional data now available, including the 2007 Census of Agriculture. Other data considered included marketing agreement records, recorded truck and rail movement, quantities inspected, and quantities used by processors. The current acreages were evaluated with historic totals to ensure comparability with past Census relationships. The 2003-2007 estimates shown herein are considered final and will not be revised again.

Shown below are the revisions at the National level for the major commodities that have multiple States in their respective programs.

State Value of Utilized Production and MYA Price Computations

The following procedure is used to compute State Values of Utilized Production and MYA Prices:

Fresh Market Value of Production:

(Fresh Market MYA) *Times* (Fresh Market Production)

Processing Value of Production:

(Processing MYA) *Times* (Processing Production)

"All" Value of Production:

(Fresh Market Value of Production) *Plus* (Processing Value of Production)

"All" MYA:

("All" Value of Production) *Divided By* ("All" Production)

U.S. MYA Price Computations

The following procedure is used to compute the U.S. MYA Prices:

Fresh Market MYA:

(Fresh Market Value of Production for All States) *Divided By* (Fresh Market Production for All States)

Processing MYA:

(Processing Value of Production For All States) *Divided By* (Processing Production For All States)

"All" Sales MYA:

(Total Value of Production for All States) *Divided By* (Total Production for All States)

Weights and Measures

The following table on weights, measures, and conversion factors covers the vegetables in this report. It does not cover all containers for any one product.

The information has been assembled from State schedules of legal weights, various sources within the U.S. Department of Agriculture, and other Government agencies. For many vegetables, there is a considerable variation in weight per unit of volume due to differences in variety or size of commodity, condition and tightness of pack, degree to which the container is heaped, etc. Effort has been made to select the most representative and fairest average for each product. For those commodities which develop considerable shrinkage, the point of origin weight or weight at harvest has been used.

The approximate or average weights as given in this table do not necessarily have official standing as a basis for packing or as grounds for settling disputes. Not all of them are recognized as legal weight. The table was prepared chiefly for use of workers in the U.S. Department of Agriculture who have need of conversion factors in statistical computations.

Electronic Publications: These bulletins will be available **free of charge** on the Internet from the NASS Home Page at: www.nass.usda.gov/, in either text, PDF, or CSV format. From the Home Page select the “Publications” button”, then “Statistical Bulletins” at the bottom of the page.

Printed Copies: Printed copies of the bulletins may be ordered by calling the Sales Order Desk toll free at 1-800-999-6779. Costs for printed copies of the publications range from \$15.00 to \$50.00. Visa, MasterCard, checks, or money orders are acceptable for payment.

Agricultural Statistics Database - Quick Stats: Selected State, U.S. and County information is available in an online database **free of charge**. The database allows custom extracts based on commodity, year, state and other selection criteria and produces an output file compatible for updating databases and spreadsheets. The database can be accessed from the NASS Home Page at: www.nass.usda.gov/.

Agricultural Census Publications: The U. S. Department of Agriculture's National Agricultural Statistics Service (NASS) releases preliminary national and state data from the 2007 Census of Agriculture and final data for Puerto Rico on February 4, 2009. Census data include demographic items such as sex of operator, residence on or off the farm, days worked off farm, years present on farm, age group categories, race, and number of persons living in each household.

Assistance: For more information pertaining to this bulletin, call Crops Branch at (202) 720-2127. For assistance with general agricultural statistics or further information about NASS or its products and services, contact the **Agricultural Statistics Hotline** at **1-800-727-9540**, 7:30 a.m. to 4:00 p.m. ET, or e-mail: nass@nass.usda.gov .

ACCESS TO REPORTS!!

For your convenience, there are several ways to obtain NASS reports, data products, and services:

INTERNET ACCESS

All NASS reports are available free of charge on the worldwide Internet. For access, connect to the Internet and go to the NASS Home Page at: www.nass.usda.gov.

E-MAIL SUBSCRIPTION

All NASS reports are available by subscription free of charge direct to your e-mail address. Starting with the NASS Home Page at www.nass.usda.gov, under the right navigation, *Receive reports by Email*, click on **National** or **State**. Follow the instructions on the screen.
