

**WYOMING WEEKLY SUMMARY**

**Recap For Week Ending**

**September 18, 2020**

**Receipts:** This Week: 5,304      Week Ago: 10,414      Year Ago: 4,683

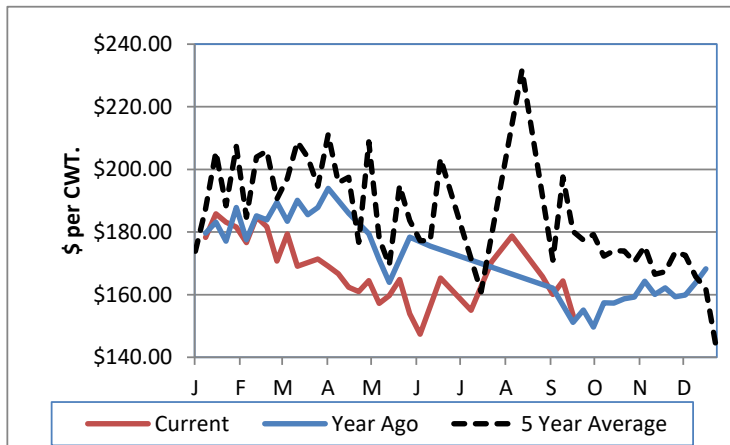

Compared to last week, steers and heifers sold unevenly steady. Demand was moderate for calves with good demand for yearling feeders off grass. Light frost damage was noticed across the state this week from aftereffects from the cold snap last week. Several reports that corn fields have turned white due to frost on the green corn and tops of alfalfa plants are brown. Most hay producers continue to cut and alfalfa and are hoping for some regrowth for one more cutting before the seasons close. Farmers are hopeful the corn crop was far enough along to make a decent product
