

Catfish Processing

Released December 18, 2009, by the National Agricultural Statistics Service (NASS), Agricultural Statistics Board, U.S. Department of Agriculture. For information on *Catfish Processing* call Chris Hawthorn at (202) 720-0585, office hours 7:30 a.m. to 4:00 p.m. ET.

Catfish Processing Down 2 Percent from Last Year

Farm-raised catfish processed during November 2009 totaled 36.2 million pounds round weight, down 2 percent from November 2008. The average price paid to producers was 76.5 cents per pound for November 2009, down 0.3 cent from last month and 5.8 cents below a year ago.

Net pounds of processed fish sold during November 2009 totaled 15.7 million pounds, down 5 percent from the comparable month in 2008. The total end of the month inventory increased 17 percent from last month but was down 6 percent from a year ago. Sales of fresh fish, at 5.96 million pounds, were down 2 percent from November 2008 and represented 38 percent of total sales. Frozen fish sales, at 9.79 million pounds, were down 7 percent from a year ago and accounted for the remaining 62 percent of total fish sales. Sales of whole fish represented 19 percent of the total fish sold, fillets accounted for 61 percent, and the remaining 20 percent were mostly steaks, nuggets, and value added products.

The November 2009 average price received by processors for total fresh fish was \$2.39 per pound, down 13 cents from last year. Prices for fresh whole fish were \$1.57 per pound, down 15 cents from November 2008. Prices for fresh fillets were down 12 cents from a year ago at \$3.18 per pound. Total frozen fish averaged \$2.58 per pound, down 2 cents from November 2008. Prices for frozen whole dressed fish were down 9 cents at \$2.18 and frozen fillets at \$2.95 per pound were down 10 cents from a year ago.

Freshwater imports for consumption of *Ictalurus* spp., *Pangasius* spp., and other catfish of the order Siluriformes for October 2009 totaled 13.9 million pounds, up 93 percent from the amount imported in October 2008. Imports were from Cambodia, Canada, China, Indonesia, Mexico, Spain, Thailand and Vietnam. The *Ictalurus* spp. imports totaled 1.58 million pounds, which were from Canada, China, Indonesia and Mexico.

Fresh, boneless catfish fillet exports totaled 138 thousand pounds, with 45.2 thousand pounds going to Canada and the rest going to the Bahamas, Canada, Equatorial Guinea, Nigeria and Turkey. Exports of frozen, boneless catfish fillets reported for October 2009 totaled 43.4 thousand pounds, going to Argentina, the British Virgin Islands, the Netherlands Antilles, Trinidad and Tobago and Vietnam.

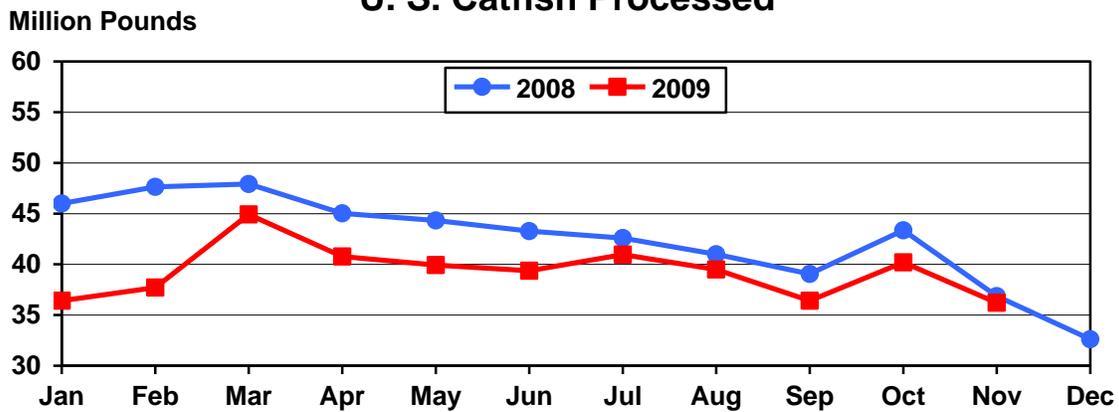

Import and export data are compiled by the U.S. Census Bureau.

¹ Data compiled by the U.S. Census Bureau.

Reliability of Catfish Processing Estimates

Survey Procedures: Survey data for catfish processing are collected from approximately 18 processors. All participating processors must meet the minimum criteria of having a capacity to process at least 2,000 pounds live weight of catfish per 8-hour shift. The survey is conducted entirely by NASS Headquarters staff in Washington, D.C. However, NASS field offices are responsible for informing Headquarters staff of any new processing operations in their state to ensure complete survey coverage. Processors are contacted either by mail, telephone, fax or internet. Diligent effort is made to ensure that all operations are accounted for in the estimate.

Estimation Procedures: The "Catfish Processing" report refers strictly to farm-raised fish and excludes wild capture fish. Prior to summarization, questionnaires are compared with the previous month's reports for comparable placement of data, reasonable price levels, and a reasonable inventory carryover given the sales and processing totals reported. Estimates are made for those processors whose reports are not available in time to be included in the release. These plants are identified by an asterisk on page 6 of this release. Estimates are normally based on the processor's previous report and current conditions. Published totals are a straight summation of the individual reports and estimated data. Price items are weighted by the associated volumes to compute weighted average prices. The published price for total whole fish, however, reflects an adjustment to the round and gutted only price to bring it to an equivalent dressed weight price.

If a plant uses a fiscal accounting system, prorating is used to convert reported data to a calendar month basis. Only national level estimates are published due to the limited number of plants involved.

One unique feature of the "Catfish Processing" report is the listing of cooperating processors by name on each month's release. This feature originally was used to solicit industry cooperation in maintaining coverage, but it has continued because of the processors' overall acceptance of this policy.

Import and export data for catfish, which are compiled by the U.S. Census Bureau, are also included in this report.

Revision Policy: Revisions may be necessary in the previous month's publication based on late reports received from plants. These revisions are made to improve month to month relationships. In February, all monthly estimates for the previous year are reviewed and subject to revision. This review is primarily based on data that may have been received after the original estimates were published.

Reliability: Estimates are based on a census of all known active processors and, therefore, have no sampling variability. However, estimates may be subject to errors such as omissions, duplication, and mistakes in reporting, recording, and processing of the data. These errors are minimized through strict quality controls in the edit and summarization process, and a careful review of all reported data for consistency and reasonableness.

Processing data were compiled in cooperation with the following processors:

America's Catch, Inc.
Carolina Classics Catfish, LLC
Consolidated Catfish Producers, LLC
Delta Supreme Fish Processors
Fish Breeders of Idaho, Inc.
Farm Catch Catfish Processors, Inc.
Freshwater Farms Products, LLC
Guidry Catfish, Inc.
Haring's Pride Catfish

Harvest Select Catfish, Inc.
Heartland Catfish
Lake's Farm Raised Catfish Inc.
Pride of the Pond
Prime Line Inc.
Seabrook Seafood, Inc.
Simmons Farm Raised Catfish, Inc.
SouthFresh Farms
Superior Fish Products

Terms and Definitions Used for Catfish Processing Estimates:

Average Price Paid to Producers - Refers to the price of fish delivered to the processing plant door. Price includes charges for any services provided by the processing plant, such as seining and hauling, but does not include any adjustments based on year-end settlements.

Fillets - Boned sides of the fish, cut lengthwise away from the backbone. Includes regular, shank, and strip fillets; excludes any breaded products.

Fresh Fish - Fish intended for immediate consumption. Also referred to as ice-packed.

Frozen Fish - Fish which are individually quick frozen and glazed (IQF) or individually bagged and bulk frozen.

Ictalurus spp. - All species under this genus, which includes channel catfish, blue catfish, and other catfish species.

Nuggets - Small fillets cuts from below the rib section of the fish and usually includes weight of breading and added ingredients.

Other Products - Includes steaks, nuggets, and all other products not separately reported including the weight of breading and added ingredients.

Pangasius spp. - All species under this genus, which includes basa, tra, stuchi catfish, and other catfish species.

Round & Guttled Only - Fish with no processing done or viscera only removed.

Round Weight - The term for a fish's live weight.

Siluriformes - The scientific order which contains all families of catfish.

Steaks - Cross-section cuts from larger dressed fish.

Strips - Finger size pieces of fish cut from fillets and usually includes breading or added ingredients.

Whole Dressed - Weight of whole fish with only head, viscera, and skin removed. Generally, 60 percent of the live weight remains as dressed fish.
