Hay market prices were steady for all hay types and demand remains strong for alfalfa, although now that we have warmer weather, the urgency has lessened. The first day of March was truly a lamb with comfortable temperatures in the high 40's and 50's with light winds. As the temperatures rise and days get longer, many are counting the bales they have left in their barns and the number of days to the first green up of pastures, which may prompt some to let loose of inventory they feel they don't need. Folks are also busy preparing equipment for the 2021 hay season and getting ready to spread fertilizer if they haven't already. According to the US Drought Monitor for the week of February 23rd, no changes were made to the drought categories. Abnormal dryness (D0) remained at 16.5%, moderate drought (D1) remained at 23%, severe drought (D2) remained at 6.5%, and extreme drought (D3) remained at 10%. If you have any extra hay to sell and/or need hay here in Kansas, use the services of the Internet Hay Exchange: www.hayexchange.com/ks.php.

***Prices are dollars per ton and FOB unless otherwise noted. Dairy alfalfa prices are for mid and large squares unless otherwise noted. Horse hay is in small squares unless otherwise noted. Prices are from the most recent sales. *CWF Certified Weed Free
