Livestock, Poultry & Grain Market News

### National Broiler Market-at-a-Glance

Whole broiler/fryer prices are at least steady to firm for all sizes. Offerings are in good balance to tight and moving well. Demand into all channels is moderate to good entering the weekend. Processing schedules are normal to light with most plants down yesterday and spot locations down today for the holiday. Floor stocks are adequate. Market activity is moderate to active. In the parts structure, prices are trending steady to firm for wings and steady for the remaining items. Offerings of wings are short of an active call and clearing well. Breast items are light to moderate, and dark meat cuts are readily available. In production areas, live supplies are moderate to heavy. Weights are mixed, but reported as desirable to heavy.

National Mechanically Separated Chicken

(f.o.b. Shipper Dock or equiv.; negotiated prices in trucklot and less than trucklot volumes reported in thousand lb. quantities, cents/lb.; delivery within 2- weeks.)

Prices of 15-20% MSC are trending steady to firm for frozen MSC, steady for fresh. Demand into domestic and export channels are light. Supplies are moderate to heavy for current needs. Not much progress for 2021 contract season as most are focused on typical challenges associated with the Thanksgiving holiday, with all options being applied to maintain product movement. Processing schedules are reduced due to the holiday. Market activity is slow. Supplies of raw materials are light to moderate. Frame prices are steady to firm with trading levels at 9-12 cents FOB., mostly 10-11 cents FOB.

**Broiler Hatchery**

**Broiler-Type Eggs Set in the United States Down 1 Percent**

Hatcheries in the United States weekly program set 235 million eggs in incubators during the week ending November 21, 2020, down 1 percent from a year ago. Average hatchability for chicks hatched during the week in the United States was 82.1 percent. Average hatchability is calculated by dividing chicks hatched during the week by eggs set three weeks earlier.

**Broiler-Type Chicks Placed in the United States Down 2 Percent**

Broiler growers in the United States weekly program placed 177 million chicks for meat production during the week ending November 21, 2020, down 2 percent from a year ago. Cumulative placements from the week ending January 4, 2020 through November 21, 2020 for the United States were 8.67 billion. Cumulative placements were down 1 percent from the same period a year earlier.
