

**NEBRASKA WEEKLY SUMMARY**

Recap For Week Ending

September 25, 2020

**Receipts:** This Week: 20,310      Week Ago: 16,967      Year Ago: 18,804

Compared to last week steer calves sold steady and yearling feeders sold steady to 2.00 higher. Heifer calves sold 2.00 to 5.00 higher and yearlings sold steady to 3.00 higher. Demand was moderate to good. The start of the spring calve run is upon the Nebraska sale barns with some calves having fall precondition shots. As the fall goes on, those fall vaccinations will become very important to prospective buyers as most weaning pens are dry and dusty. As October rolls around next week, most buyers are aware that yearlings will be in short supply. This made order and farmer/feeders bid readily at auctions for those cattle pushing the yearling market higher. Bulk of the yearlings continue to come out of short range and should have fairly good compensatory gains. Buyers were readily bidding on preg checked open heifers on the market and these "front end heifers" will feed about as good as a steer. Some reported sales on MPR for the Nebraska feedlots were reported at 105.00 live and 165.00 dressed.
