Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Special Note: \*\*\* Until hay trade becomes more active this will be a bi-weekly report \*\*\*

Compared to two week's ago: Hay trade remains at a slow, most producers are hoping for a turnaround after the new year. Recent moisture and above average temperatures has cow/calf operators extending their pasture grazing and little need for new hay until a hard freeze hit the trade area. Demand remains light to moderate.
