Direct Hay Weighted Average Report for week ending 4/30/2021

Volume			
	This Week	Last Reported (4/12/2021)	Last Year
<b>Tons:</b>			
Hay	180	420	0
Total	180	420	0
<b>Bales:</b>			
Hay	0	100	0
Total	0	100	0

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Compared to the last report 04/15/21: Hay trade remains very slow as several weeks of cooler than average temperatures and heavy rainfall has producers eager to get first cutting. Many producers are reporting that with the current cool nights Alfalfa fields remain in rough conditions and a very tough first cutting could be mostly grinder hay. No trades of cow hay or ground alfalfa this week for a trend. Demand remains moderate as most feed yards and dairies seem to be current as of now. Demand remains light to moderate for farmers and ranchers as grass is starting to grow.

North Central						
Hay (Conventional)						
<b>Alfalfa - Premium (Trade/Per Ton)</b>						
	<u>Qty</u>	<u>Price Range</u>	<u>Wtd Avg</u>	<u>Freight/Use</u>	<u>Description</u>	<u>Crop Age</u>
Large Square 4x4	180	175.00	175.00	F.O.B.-Feedlot/dairy		Old Crop
<b>Alfalfa - (Offer/Per Bale)</b>						
	<u>Qty</u>	<u>Price Range</u>	<u>Wtd Avg</u>	<u>Freight/Use</u>	<u>Description</u>	<u>Crop Age</u>
Small Square		9.00		F.O.B.-Farm/Ranch		Old Crop
