Special Note: *** Please note that until hay trade becomes more active this report will become bi-weekly ***

Compared to two week's ago: Hay trade remains slow on limited offerings due to recent heavy rains and cooler than average temperatures has producers preparing for a second cutting of Bermuda grass later this Fall. Alfalfa trade also has been slow because many dairies have introduced alternative feed stuffs. Stock cow producers are hoping the cooler and wetter weather will extend grazing into the Fall leaving less need to start stock piling hay. Temperatures are unseasonably cool by about 5 to 7 degrees under seasonal averages, forecast has the next week in mostly low to mid 80's and many nights in the 40's. Demand mostly light.
