**Rice Stocks:** Final Estimates by States, 2008-2013, U.S. Department of Agriculture, Agricultural Statistics Board, National Agricultural Service, Statistical Bulletin No. 1045.

**Introduction:** This bulletin presents final estimates made by the Agricultural Statistics Board (ASB) for the years 2008-2013 of rice stocks on-farm and off-farm for the six major producing States – Arkansas, California, Louisiana, Mississippi, Missouri, and Texas. On-farm and off-farm stocks data were published during calendar years 2008-2013 in periodic ASB reports. Data included in this publication provide an historic record and a benchmark for current estimates. The 2013 June Rice Stocks report was suspended due to reduced funding caused by sequestration.

**Procedures:** Stocks revisions were considered after evaluating ASB production (See Statistical Bulletin 1044). The ASB evaluated production, beginning stocks, recorded disappearance, and ending stocks to ensure that all estimates were reasonable when compared with current and historic totals. The 2008-2013 estimates shown herein are considered final and will not be revised in the future.

**Historic Estimates:** Final estimates of Rice Stocks in earlier years are available in Statistical Bulletins No. 1012 for 2003-2008, No. 984 for 1998-2003, No. 949 for 1993-1998, No. 898 for 1988-1993, No. 795 for 1978-1988, No. 652 for 1975-1979, No. 599 for 1968-1975, and No. 429 for 1942-1946, 1950-1953, and 1956-1967.

**Agricultural Census Publications:** The U. S. Department of Agriculture's National Agricultural Statistics Service (NASS) released several products from the 2012 Census of Agriculture on May 2, 2014. The Census is the leading source of statistics about the Nation's agricultural production and the only source of consistent, comparable data at the county, State, and national levels. The Census includes all places from which \$1,000 or more of agricultural products, including government payments, were produced and sold, or normally would have been sold, during the census year. Census publications also include demographic items such as sex of operator, residence on or off the farm, days worked off farm, years present on farm, age group categories, race, and number of persons living in each household.
