Summary

Broiler-type and Egg-type Up with Turkey Hatch Down

Broiler-type chicks hatched during 2015 totaled 9.32 billion, up 2 percent from 2014.

Leading United States breeders had intended placements of 89.9 million broiler-type pullet chicks for future domestic hatchery supply flocks during 2015, up 7 percent from 2014.

Placements of broiler chicks for meat production totaled 9.10 billion during the 52 week period ending January 2, 2015, up 2 percent from the 52 week period ending December 27, 2014.

Egg-type chicks hatched during 2015 totaled 566 million, up 9 percent from 2014.

Leading United States breeders had intended placements of 3.12 million egg-type pullet chicks for future domestic hatchery supply flocks during 2015, up 1 percent from 2014.

Turkey poults hatched during 2015 were down 4 percent from 2014, with 267 million hatched. Net poult placements totaled 258 million for 2015, down 3 percent from 2014.

The capacity of chicken hatcheries on January 1, 2016, was 907 million eggs, up 1 percent from January 1, 2015.

The capacity of turkey hatcheries was 42.2 million eggs on January 1, 2016, up 1 percent from January 1, 2015.

Statistical Methodology

Survey Procedures: Data for annual chicken and turkey hatchery counts and incubator capacities are collected in January from all known hatcheries which have the capacity to hold at least 1,000 chicken and/or turkey eggs. Approximately 300 chicken hatcheries are contacted for information on a weekly, monthly, and/or annual basis. While, approximately 60 turkey hatcheries are contacted each month and/or annually. Individual NASS field offices maintain a list of all known hatcheries and use known sources to update their lists. Hatcheries are mailed a questionnaire as close to the survey reference date as possible and given adequate time to respond via mail, fax, or electronic data reporting (EDR). Those that do not respond are contacted by phone. Care is exercised to ensure that all sampled hatcheries are accounted for in the estimate.

Data for **chicken hatchery** estimates are collected based on type of chicken hatched. **Broiler-type hatchery** data are collected weekly from all broiler-type hatcheries that hatch at least one million chicks a year. States receiving greater than 500,000 chicks annually for grow-out are included in Other States for chick placed. **Egg-type hatchery** data are collected monthly from all egg-type hatcheries that hatch at least 50,000 chicks a year.

Data for **turkey hatchery** estimates are collected monthly from turkey hatcheries hatching 15,000 or more poults annually.

Estimating Procedures: Sound statistical methodology is employed to derive the estimates from reported data. All data are analyzed for unusual values. Data from each operation are compared to their own past operating profile and to trends from similar operations. Data for missing operations are estimated based on similar operations or historical data. NASS field offices prepare these estimates by using a combination of survey indications and historic trends. Individual State estimates are reviewed by the Agricultural Statistics Board for reasonableness. Individual hatchery data are summed to State, regional, and United States totals.

For **chicken hatcheries**, chicks hatched consist of all chicks of domesticated breeds including males and chicks intended for hatchery supply flocks and research purposes. Eggs set are eggs in incubators for the purpose of hatching. The relationship of egg-type chicks hatched to chicken inventory and poultry marketings are carefully monitored. Broiler chicks placed are specifically placed for meat production. Intended placement data reported by leading breeders include pullet chicks expected from eggs sold the preceding month. The breeders in this report account for a large percentage of replacement pullets for hatchery supply flocks. Production of replacement pullets by these breeders indicates the number of pullets available to hatchery supply layer flocks several months before the pullets will actually move into the laying flocks. “Hatchery Supply Flocks” include all generations of layers which could lay eggs to supply a hatchery. This includes the generations of parents, grandparents, great-grandparents, pedigree, etc. Also included are research flocks, vaccine flocks, and specific pathogen-free flocks. The broiler cumulative potential placements are a moving total of the intended placements 7-15 months earlier. The egg-type cumulative potential placements of 7-18 months earlier represent the first laying cycle. Molting and additional laying cycles will increase the cumulative potential placements of egg-type hatching flocks.

For **turkey hatcheries**, only United States level estimates for eggs in incubators, poults hatched, and net turkey placements are published for all known turkey hatcheries hatching 15,000 or more poults annually. Net poults placed refer to placement of poults from hatcheries in the United States, including imported poults and excluding exported poults.

Revision Policy: Revisions are generally the result of late or corrected data. Revisions made to any weekly or monthly data during the year are published in this report.

Reliability: Hatchery estimates are based on a census of all known operating hatcheries and therefore, have no sampling error. However, estimates are subject to errors such as omission, duplication, and mistakes in reporting, recording, and processing the data. While these errors cannot be measured directly, they are minimized through strict quality controls in the data collection process and a careful review of all reported data for consistency and reasonableness.

Egg-Type Regional Listing

North Atlantic:	Connecticut, New York, Pennsylvania.
East North Central:	Illinois, Indiana, Michigan, Ohio, Wisconsin.
West North Central:	Iowa, Kansas, Minnesota, Missouri, Nebraska.
South Atlantic:	Florida, Georgia, Virginia.
South Central:	Alabama, Mississippi, Texas.
West:	California, Idaho, New Mexico.

Broiler-Type Regional Listing

North Atlantic:	New York, Pennsylvania.
East North Central:	Indiana, Ohio, Wisconsin.
West North Central:	Iowa, Minnesota, Missouri.
South Atlantic:	Delaware, Florida, Georgia, Maryland, North Carolina, South Carolina, Virginia, West Virginia.
South Central:	Alabama, Arkansas, Kentucky, Louisiana, Mississippi, Oklahoma, Tennessee, Texas.
West:	California, Oregon, Washington.

Access to NASS Reports

For your convenience, you may access NASS reports and products the following ways:

- All reports are available electronically, at no cost, on the NASS web site: http://www.nass.usda.gov
- Both national and state specific reports are available via a free e-mail subscription. To set-up this free subscription, visit http://www.nass.usda.gov and click on "National" or "State" in upper right corner above "search" box to create an account and select the reports you would like to receive.

For more information on NASS surveys and reports, call the NASS Agricultural Statistics Hotline at (800) 727-9540, 7:30 a.m. to 4:00 p.m. ET, or e-mail: nass@nass.usda.gov.

The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers, employees, and applicants for employment on the basis of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.)

If you wish to file a Civil Rights program complaint of discrimination, complete the USDA Program Discrimination Complaint Form (PDF), found online at http://www.ascr.usda.gov/complaint_filing_cust.html, or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at program.intake@usda.gov.
