Direct Hay Weighted Average Report for week ending 8/7/2020

Volume			
	This Week	Last Reported (7/27/2020)	Last Year
Tons:			
Hay	933	0	0
Straw	100	0	0
Total	1033	0	0
Bales:			
Straw	25	0	0
Total	25	0	0

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Compared to last week: All classes of hay steady to firm. Demand rather moderate overall with most hay users only buying what they currently need. Scattered rains have made it difficult for many growers to put up their third cutting of alfalfa. The rains have been missing much of the state which resulted in a lighter volume for the third cutting. Drought conditions have expanded across the state with many areas in need of good rains.
