<b>Total</b>	<b>325</b>	<b>675</b>	<b>4050</b>
<b>Bales:</b>			
Straw	110	100	1000
<b>Total</b>	<b>110</b>	<b>100</b>	<b>1000</b>

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Compared to last week: All classes of hay firm. Very good demand for high feed value testing alfalfa hay, good demand for all other qualities. The weather has gotten colder, with a few warmer days in the middle, but still no snow cover is helping to stretch forage supplies as beef cows are out grazing winter pastures or crop residues in the field. Cattle producers in the worst of the drought areas are selling calves, or have sold already, as they try to reduce their forage needs. This report will not be released next week due to the Thanksgiving holiday, next report will be Dec 3, 2021.
