Livestock, Poultry, and Grain Market News

September 23, 2020

Current Midwest Drought Summary (September 15, 2020)

Dramatic drought improvement came to many areas in the form of a multi-day rain event. Measurable rain fell each day from September 6-12 in Iowa locations such as Dubuque and Davenport, totaling 7.46 and 7.76 inches, respectively. During the same 7-day period, Moline, IL, received 5.97 inches. Broad improvements were introduced where the heaviest rain fell, but some eastern sections of the Midwest remained dry and saw some development or expansion of abnormal dryness (D0). Extreme drought (D3) was erased from Iowa, with only patch of D3 remaining in eastern Nebraska. In contrast, September 1-15 rainfall totaled just 0.04 inch (3% of normal) in Indianapolis, Indiana, and 0.50 inch (32%) in Saint Louis, Missouri.
