United States production of cottage cheese curd in July was estimated at 53,650,000 pounds, the Crop Reporting Board reports. This is only slightly higher than in July 1965, but is 4 percent more than the 1960-64 average for the month. Increases from July 1965 in the East North Central, and the North and South Atlantic Regions offset decreases in the other regions. Output declined from June in all regions except the South Atlantic and the Pacific.
