Cottage cheese curd production in the United States in November is estimated at 47,465,000 pounds, the Crop Reporting Board reports. This is 3 percent less than in November 1965, but 5 percent more than the 1960-64 average for the month. Output was less than in November 1965 in all regions except the South Atlantic and the Pacific. Production declined from October in all regions except the Mountain.
