ROUGH RICE STOCKS: Rough rice stored in all positions January 1, 1979 totaled 95.9 million hundredweight (4.35 million metric tons), 24 percent more than last year's 77.1 million hundredweight (3.50 million metric tons), but 4 percent less than the January 1, 1977 record high of 100 million hundredweight (4.54 million metric tons). These estimates include stocks on farms, in mills and warehouses, ports and in transit for the six major rice producing States.

Long grain rice stocks at 54.8 million hundredweight (2.49 million metric tons) accounts for 57.1 percent of the total. Medium grain stocks of 30.9 million hundredweight (1.40 million metric tons) and short grain stocks of nearly 10.3 million hundredweight (465 thousand metric tons) account for 32.2 and 10.7 percent of the total, respectively. January 1, 1978 stocks were about 42.6 million hundredweight (1.93 million metric tons) long grain, 26.6 million hundredweight (1.21 million metric tons) medium grain, and 7.82 million hundredweight (355 thousand metric tons) short grain, or 55.3, 34.5, and 10.2 percent of the total, respectively.

MILLED RICE STOCKS: Stocks of milled rice totaled 8.41 million hundredweight (382 thousand metric tons), up 31 percent from last year's 6.44 million hundredweight (292 thousand metric tons) and up 94 percent from January 1, 1977. Milled rice stocks consist of 7.13 million hundredweight (323 thousand metric tons) whole kernels and 1.28 million hundredweight (58.2 thousand metric tons) second heads, screenings and brewers.
