Bulletin  
Number 950 a

# Noncitrus Fruits and Nuts

## Final Estimates 1992-97

# USDA

**Introduction:** This bulletin presents final estimates, including revisions made by the Agricultural Statistics Board (ASB), for the production years 1992 through 1997. Acreage, yield, production, price, and value data were published during calendar years 1993-98 in periodic ASB reports. Data included in this publication provide a historic record and a benchmark for current estimates.

**Procedures:** Revisions were made after a thorough review of the original survey data and all additional data now available, including the 1997 Census of Agriculture. Other data considered included marketing agreement records, recorded truck and rail movement, quantities inspected, quantities used by processors, and the latest available fruit and nut inventory surveys. The current acreages were evaluated with historic totals to ensure comparability with past Census relationships. The 1992-97 estimates shown herein are considered final and will not be revised again.

Most of the data in this Statistical Bulletin were revised from earlier published levels. At the National level, the revisions made to production were mostly less than 1 percent but acreage changes were more significant. The majority of the revisions were made to the 1997 crop. Where necessary, data for earlier years were also revised. Shown below are the revisions at the National level for the major commodities that have multiple States in their respective programs.

Revision Summary

| Year           | From          |                                  | To            |                                  |                                |
|----------------|---------------|----------------------------------|---------------|----------------------------------|--------------------------------|
|                | Bearing Acres | Utilized Production (1,000 tons) | Bearing Acres | Utilized Production (1,000 tons) | Utilized Production (% Change) |
| <b>Apples</b>  |               |                                  |               |                                  |                                |
| 1997           | 453,220       | 5,159.9                          | 467,950       | 5,127.2                          | -0.6 %                         |
| 1996           | 461,470       | 5,170.0                          | 467,550       | 5,165.0                          | 0                              |
| 1995           | 460,470       | 5,195.0                          | 462,600       | 5,192.0                          | 0                              |
| 1994           | 459,270       | 5,665.7                          | 459,450       | 5,666.4                          | 0                              |
| 1993           | 460,550       | 5,287.0                          | 459,730       | 5,287.2                          | 0                              |
| 1992           | 455,050       | 5,231.7                          | 455,050       | 5,231.7                          | 0                              |
| <b>Peaches</b> |               |                                  |               |                                  |                                |
| 1997           | 167,900       | 1,259.5                          | 157,750       | 1,254.2                          | -0.6 %                         |
| 1996           | 168,755       | 1,027.7                          | 164,335       | 1,021.9                          | -0.6 %                         |
| 1995           | 169,710       | 1,095.5                          | 164,640       | 1,089.6                          | -0.5 %                         |
| 1994           | 173,610       | 1,179.3                          | 169,075       | 1,177.0                          | -0.2 %                         |
| 1993           | 174,740       | 1,247.1                          | 173,355       | 1,239.2                          | -0.6 %                         |
| 1992           | 179,350       | 1,246.4                          | 179,350       | 1,246.4                          | 0                              |
| <b>Pears</b>   |               |                                  |               |                                  |                                |
| 1997           | 69,310        | 1,043.5                          | 66,880        | 1,041.9                          | 0.1 %                          |

<sup>1</sup> Only utilized production estimated.

**Historic Estimates:** Final estimates of Noncitrus Fruits and Nuts in earlier years are available in Statistical Bulletins No. 900 for 1987-92, No. 809 for 1982-87, No. 718 for 1978-82, No. 647 for 1974-78, No. 593 for 1969-74, No. 505 for Noncitrus Fruits 1964-70, No. 504 for Tree Nuts 1964-70, No. 407 for Noncitrus Fruits 1959-64, No. 473 for Tree Nuts 1909-65, No. 292 for Noncitrus Fruits 1954-59, No. 295 for Tree Nuts 1954-59, No. 192 for Noncitrus Fruits 1949-55, No. 195 for Tree Nuts 1949-55, No. 114 for 1944-49, and CS-27 for 1889-1944.

**Other Statistical Bulletins:** The National Agricultural Statistics Service will issue a series of twenty bulletins in 1998-99 containing final estimates for agricultural commodities based on the review of the 1997 Census of Agriculture and other information. The product number, bulletin title, and tentative release dates are as follows.

**Electronic Publications:** These bulletins will be available **FREE OF CHARGE** on the Internet from the NASS Home Page at: <http://www.usda.gov/nass/>, in either text or PDF format. From the Homepage select "Historic Data," then "Statistical Bulletins."

**Internet Published Estimates Data Base:** Selected historical State and U.S. information is now available in an online data base via the Internet **free of charge**. County information will be available by mid 1999. The database allows custom extracts based on commodity, year, state and other selection criteria and produces an output file compatible for updating databases and spreadsheets. The database can be accessed from the NASS Home Page at: <http://www.usda.gov/nass/>.

**Printed Copies:** Printed copies of the bulletins may be ordered by calling the Sales Order Desk toll free at 1-800-999-6779. Costs for printed copies of the publications range from \$15.00 to \$20.00. Visa, MasterCard, check, or money order are acceptable for payment.

**Agricultural Census Publications:** The Volume 1, Geographic Area Series publication containing the United States Summary provides National data and selected data for each State. Separate State reports present statistics for the entire State and each county. Census reports cover the 1997 production year, with comparative data for earlier census years. The 1997 Census of Agriculture Geographic Area Series products, including all manipulable data files and Adobe Acrobat (PDF) files of the printed reports, will be available on March 20, 1999 via the Internet at <http://www.usda.gov/nass/>. The information is also available on CD-ROM, and in printed publications. Printed copies of the Census publications and CD-ROM's may be ordered by calling the Sales Order Desk toll free at 1-800-999-6779.

**Assistance:** For more information pertaining to this bulletin call Crops Branch at (202) 720-2127. For assistance with general agricultural statistics or further information about NASS or its products and services, contact the **Agricultural Statistics Hotline** at **1-800-727-9540**, 7:30 a.m. to 4:00 p.m. ET, or e-mail: [nass@nass.usda.gov](mailto:nass@nass.usda.gov).

The United States Department of Agriculture (USDA) prohibits discrimination in all its programs on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (braille, large print, audiotape, etc.) should contact the USDA's TARGET Center at 202-720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W, Whitten Building, 1400 Independence Avenue, SW, Washington, D.C., 20250-9410, or call 202-720-5964 (voice or TDD). USDA is an equal opportunity provider and employer.

<sup>1</sup> Harvested acreage. Yield based on utilized production.

<sup>2</sup> Acres of raisin grapes enrolled in the CA Raisin Industry Diversion (RID) program amounted to 12,500 in 1992; 20,000 in 1993; none in 1994. These acres were deducted from bearing acres for yield calculations. These acres were deducted from bearing acres for yield calculations.

<sup>3</sup> Acreage is total acres in crop, not harvested acreage. Yield is not estimated.

<sup>4</sup> ID, MI, OR, and WA.

<sup>5</sup> Bearing acreage and yield not calculated.

<sup>1</sup> Harvested acreage. Yield based on utilized production.

<sup>2</sup> Acres of raisin grapes enrolled in the CA Raisin Industry Diversion (RID) program amounted to 25,000 in 1995; none in 1996; none in 1997. These acres were deducted from bearing acres for yield calculations.

<sup>3</sup> Acreage is total acres in crop, not harvested acreage. Yield is not estimated.

<sup>4</sup> ID, MI, OR, and WA.

<sup>5</sup> Bearing acreage and yield not calculated.

<sup>1</sup> Cranberries paid for by processors and lost because of dehydration and berry breakdown after delivery.

<sup>2</sup> Weighted average of co-op and independent sales. Co-op prices represent pool proceeds excluding returns from non-cranberry products and before any deductions for capital stock and other retains.

<sup>1</sup> Yield is based on total production.

<sup>2</sup> Acres of raisin grapes enrolled in the CA Raisin Industry Diversion (RID) program amounted to 12,500 in 1992; 20,000 in 1993; none in 1994. These acres were deducted from bearing acres for yield calculations.

<sup>1</sup> Yield is based on total production.

<sup>2</sup> In 1995, 25,000 acres of raisin grapes were enrolled in the CA Raisin Industry Diversion (RID) program. These acres were deducted from bearing acres for yield calculations.

<sup>3</sup> AZ, KS, MO, and TN in 1992; AZ, MO, and TN in 1993 and 1995; and AZ, MS, MO and TN in 1994. No breakdown between varieties available. Estimates discontinued in 1996 for MO and TN.

## Definition of Terms

**Apples, Commercial Crop** is orchards of 100 or more bearing age trees.

**Bearing Acreage** is determined by the mature fruit area in a given orchard. Bearing age is a function of many factors including variety, rootstock, year planted, etc. It is primarily based on periodic orchard surveys. In non-survey years, acreage is based on trends, county extension service data, end-of-year production surveys, and other indications.

**Prices** are a marketing year average for all methods of sale. For a crop sold for both fresh market and processing, the **Marketing Year Average Price (MYA)** is a weighted average of the fresh and processing price.

Prices for fresh fruit are the average prices producers receive at the point of first sale. This is commonly referred to as the **average price as sold**. Since the point of first sale is not the same for all producers, prices for the various methods of sale are weighted by the proportionate quantity sold. For example, if in a given State part of the fruit is sold F.O.B. packed by growers, part is sold as bulk fruit at the packinghouse door, and some is sold retail at roadside stands, the fresh fruit **average price as sold** is a weighted average of the average price for each method of sale. The exception is fresh fruit sales in California, Washington, New York (apples only) and Oregon (except peaches) which are equivalent returns at packinghouse door. The equivalent packinghouse returns represent adjusted prices.

F.O.B. packed prices are adjusted to an equivalent incoming packinghouse door price by subtracting all costs that accumulate between the incoming packinghouse door and the F.O.B. price. These costs include grading, packing, inspecting fees, selling, and other costs.

Prices for fruit sold for processing are equivalent returns for fruit delivered to the processing plant door except for cranberries and California olives and clingstone peaches which are priced at the first delivery point.

Crop value estimates in this report cover the marketing season or crop year and should not be confused with cash receipts from these crops which are on a calendar year.

**Total Production** is the quantity actually harvested plus quantities which would have been acceptable for fresh market or processing but were not harvested because of economic or natural reasons.

**Unutilized Production** is the difference between total and utilized production which is fruit not harvested for economic or natural reasons and harvested fruit not sold or utilized.

**Utilization** refers to first utilization, not necessarily final utilization. For example, frozen fruit includes some fruit that may be later used for making preserves. Grade-outs for fresh market fruit which are processed are included in the processing quantity. Fruit graded-out from canning or freezing and utilized for juice is included with juice.

**Utilized Production** is the amount sold plus the quantities used at home or held in storage.

**Yield per Acre** is based on total production which includes unharvested production and fruit harvested but not sold due to marketing conditions.

## State Value of Sales Computation Procedure

The following procedure is used to compute State values for all commodity groups:

**Fresh Market Value** = Fresh Market MYA  
Times  
Fresh Market Utilization

**Process Market Value** = Process Market MYA  
Times  
Process Market Utilization

**"All" Sales Value** = Fresh Market Value  
Plus  
Process Market Value

**"All" Sales MYA** = "All" Sales Value  
Divided By  
"All" Sales Utilization

For commodities with components not identified by market channel, substitute breakdown name for fresh/processing market and use the same procedure.

## U.S. MYA Computation Procedure

The procedure used for computation of U.S. Marketing Year Average Prices follows:

**Fresh Market MYA** = Fresh Market Value For All States  
Divided By  
Fresh Market Utilization For All States

**Process Market MYA** = Process Market Value For All States  
Divided By  
Process Market Utilization For All States

**"All" Sales MYA** = Sales Value For All States  
Divided By  
Sales Utilization For All States

## Marketing Seasons for Noncitrus Fruits <sup>1</sup>

**Apples:** All South Atlantic States, Kentucky, Tennessee, Indiana, Illinois, Missouri, Arkansas, New Mexico, and California, June 1 to May 31; all other States, July 1 to June 30, except Washington and Oregon where the bulk of the crop is marketed August 1 to July 31.

**Apricots:** **Fresh Fruit** - May 25 to August 20.  
**Canning** - June 15 to August 15.  
**Dried** - California, June 20 to August 20.

**Avocados:** California - November 1 to November 30 of the following year.  
Florida - June 20 to Feb 28.  
Hawaii - January 1 to December 31 with peak harvest from March 1 to April 30.

**Bananas:** January 1 to December 31.

**Cherries:** **Fresh Fruit** - Sweet varieties, May 1 to August 15;  
Tart varieties, June 15 to August 20.

**Cranberries:** September 5 to December 20.

**Dates:** August 15 to March 15.

**Figs:** **Fresh Fruit** - June 5 to October 30.  
**Canning** - August 1 to October 15.  
**Dried** - California, June 20 to October 31.

**Grapes:** **Fresh Fruit** - California, May 25 to April 30;  
Arizona, June 5 to July 15;  
All other States, July 10 to October 31.

**Crushed for Juice, Wine and Brandy** - August 1 to December 15.

**Dried for Raisins** - California, September 1 to May 30.

**Guavas:** January 1 to December 31 with peak harvest from September 1 to October 31.

**Kiwifruit:** November 1 to April 30.

**Nectarines:** June 10 to August 31.

**Olives:** September 25 to March 15.

<sup>1</sup> See footnote at end of table.

### Marketing Seasons for Noncitrus Fruits <sup>1</sup> (continued)

**Papayas:** January 1 to December 31 with peak harvest from May 15 to July 15 and September 15 to December 15.

**Peaches:** **Fresh Fruit** - Georgia and South Carolina, May 20 to August 31; Other South Atlantic States, South Central States, and California, June 1 to September 30; New England States, New York, Michigan, and Idaho, August 1 to September 30; all other States, July 1 to September 30.

**Canning** - California, July 1 to September 10.

**Dried** - California, August 1 to October 10.

**Pears:** **Fresh Fruit** - California, July 1 to April 30; Washington and Oregon, August 10 to May 31; Other States, July 1 to December 15.

**Canning and Dried** - California, Washington and Oregon, August 1 to November 30.

**Pineapples:** January 1 to December 31 with peak harvest from March 1 to July 31.

**Plums:** **Fresh Fruit** - California, May 25 to September 30.

**Canning** - California, June 1 to September 30.

**Prunes:** **Dried** - California, August 1 to April 31.

**Prunes and Plums:** **Fresh Fruit and Canning** - Idaho, Michigan, Oregon and Washington, August 10 to October 20.

### Marketing Seasons for Tree Nuts <sup>1</sup>

**Almonds:** August 5 to November 15.

**Filberts (Hazelnuts):** October 1 to September 30.

**Macadamia Nuts:** January 1 to December 31 with peak harvest from August 1 to December 31.

**Pecans:** September 30 to March 15.

**Pistachios:** September 1 to October 31.

**Walnuts:** September 15 to December 30.

<sup>1</sup> For detail by States, see Agricultural Handbook No. 186, "Fruits and Tree Nuts, Blooming, Harvesting, and Marketing Dates", Dec 1975.
