Direct Hay Weighted Average Report for week ending 11/20/2020

	Volume		
	This Week	Last Reported (11/9/2020)	Last Year
Tons:			
Hay	1217	3492	0
Total	1217	3492	0

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Special Note: Next released report will be in two weeks on December 3, 2020

Compared to last week, all reported forages sold steady. Demand was good. Most of the sales are staying in the local production areas as many hay contacts are having a very hard time finding trucks to haul hay out of state. Especially trucks heading to different areas of the Eastern half of the USA. Reports of fall tillage work continuing on the last several warm days. ***All sales are dollars per ton FOB the field or hay barn unless otherwise noted.
