Direct Hay Weighted Average Report for week ending 5/14/2021

Volume		
This Week	Last Reported ()	Last Year

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Compared to the last report: Hay prices are firm. Most of the regions received some moisture, with the largest amounts falling over North, South, and East Texas. The Panhandle, West, and Central only received trace amounts of moisture and lead to no improvements to the drought conditions. First cutting is under way down South, and prices are holding steady with old crop prices. Some Rye and other winter forages have been harvested up North.

Due to limited sales and price changes this report will be released bi-weekly until more volumes of hay is moving.

*** The next report release will be May 28th***

Central						
Hay (Conventional)						

Alfalfa - Premium/Supreme (Ask/Per Ton)

	Qty	Price Range	Wtd Avg	Freight/Use	Description	Crop Age
Large Square 3x4		300.00-310.00		Delivered
