Meat Animals Production, Disposition, and Income: Final Estimates by State, 1993-97, U.S. Department of Agriculture, Agricultural Statistics Board, National Agricultural Statistics Service, Statistical Bulletin No. 959.

Introduction: This bulletin presents final estimates, including revisions made by the Agricultural Statistics Board (ASB), for the production years 1993 through 1997. The production, disposition, and income from meat animals for 1993-1997 were published during calendar years 1994-1998. Data included in this publication provide a historic record and a benchmark for current estimates.

Procedures: Revisions were made after a thorough review of the original survey data and all additional data now available, including the 1997 Census of Agriculture. Other data series considered included slaughter data, shipment records, imports, and exports, and any other available administrative information. The 1993-1997 estimates shown herein are considered final and will not be revised again.

At the National level, revisions to estimates of meat animals production and gross income were 2 percent or less.

Cash Receipts: Receipts from marketings and any sale of farm-slaughtered meats. For hogs and pigs, includes an allowance for feeder pig outshipments. U.S. prices received for cattle and calves, hogs and pigs, and sheep and lambs were published in "**Agricultural Prices**", released February 26, 1999.

Farm Slaughter: Animals slaughtered on farms primarily for home consumption. Excludes custom slaughter for producers at commercial establishments.

Gross Income: Sum of cash receipts and value of home consumption.

Inshipments: Livestock shipped into States for feeding or breeding. Excludes animals brought in for immediate slaughter.

Inventory Value: The value of inventory on hand as of January 1 (cattle and sheep) or December 1 (hogs). Values per head are based on information reported by respondents to the respective inventory surveys.

Number of head marketed includes all custom slaughter, but live weight marketed, shown in pounds, excludes custom slaughter consumed on farms where produced.

Production: Includes total live weight of animals marketed, farm slaughter, and custom slaughter consumed on farms where produced, minus live weight of inshipments, with an adjustment for any increase or decrease in live weight of inventory.

Value of Home Consumption: Total value of on-farm slaughter and custom slaughter consumed on the farm where produced.
