## Summary

**Meat Animals Production, Disposition, and Income:** Final Estimates by State, 2008-2012, U.S. Department of Agriculture, Agricultural Statistics Board, National Agricultural Statistics Service, Statistical Bulletin No. 1040.

**Introduction:** This bulletin presents final estimates, including revisions made by the Agricultural Statistics Board (ASB), for the production years 2008 through 2012. The production, disposition, and income from meat animals for 2008-2012 were published during calendar years 2009-2013. Data included in this publication provide a historic record and a benchmark for current estimates.

**Procedures:** Revisions were made after a thorough review of the original survey data and all additional data now available, including the 2012 Census of Agriculture. Other data series considered included slaughter data, shipment records, imports, exports, and any other available administrative information. The 2008-2012 estimates shown herein are considered final and will not be revised again.

State level average prices per 100 pounds were discontinued following the 2010 marketing year. For the 2011 and 2012 marketing years, cattle and hogs prices were calculated based on data provided by United States Department of Agriculture's Agricultural Marketing Service (AMS).

At the National level, revisions to estimates of meat animals production and gross income were less than one and one half percent for cattle and less than one percent for hogs.

## Terms and Definitions

**Cash Receipts:** Receipts from marketings and any sale of farm-slaughtered meats. For hogs and pigs, includes an allowance for feeder pig outshipments.

**Farm Slaughter:** Animals slaughtered on farms primarily for home consumption. Excludes custom slaughter for producers at commercial establishments.

**Gross Income:** Sum of cash receipts and value of home consumption.

**Inshipments:** Livestock shipped into States for feeding or breeding. Excludes animals brought in for immediate slaughter.

**Inventory Value:** The value of inventory on hand as of January 1 (cattle) or December 1 (hogs). Values per head are based on information reported by respondents to the respective inventory surveys.

**Marketings:** Includes animals for slaughter market and younger animals shipped to other States for feeding and breeding purposes. Excludes interfarm sales within the same State and farm slaughter. Number of head marketed includes all custom slaughter, but live weight marketed, shown in pounds, excludes custom slaughter consumed on farms where produced.

**Production:** Includes total live weight of animals marketed, farm slaughter, and custom slaughter consumed on farms where produced, minus live weight of inshipments, with an adjustment for any increase or decrease in live weight of inventory.

**Value of Home Consumption:** Total value of on-farm slaughter and custom slaughter consumed on the farm where produced.

**Agricultural Census Publications:** The U. S. Department of Agriculture's National Agricultural Statistics Service (NASS) released several products from the 2012 Census of Agriculture on May 2, 2014. The Census is the leading source of statistics about the Nation's agricultural production and the only source of consistent, comparable data at the county, State, and national levels. The Census includes all places from which \$1,000 or more of agricultural products, including government payments, were produced and sold, or normally would have been sold, during the census year. Census publications also include demographic items such as sex of operator, residence on or off the farm, days worked off farm, years present on farm, age group categories, race, and number of persons living in each household.

## Access to NASS Reports

For your convenience, you may access NASS reports and products the following ways:
