Combined United States and Canadian All Wheat Ground for Flour Down 1 Percent From 2018

This publication is a result of a joint effort by Statistics Canada and USDA's National Agricultural Statistics Service to release the flour milling production information for both countries within one publication. United States flour milling production numbers for 2019 were previously released on May 1, 2020. Canadian flour milling production numbers were released on April 28, 2020.

Combined United States and Canadian all wheat ground for ground for flour was 1.03 billion bushels in 2019, a decrease of 1 percent from 2018. Flour production totaled 476 million hundredweight compared to 480 million hundredweight in 2018.

Combined United States and Canadian durum wheat ground for flour and semolina was 74.5 million bushels in 2019, down 1 percent from 2018. Durum flour production totaled 35.3 million hundredweight, down 1 percent from 2018.
