AUCTION

	This Week	Last Reported 11/12/2020	Last Year

Special Note: ***Calves weaned longer than 45 days are left untagged***

Compared to last week: Yearling steers were too lightly tested last sale to develop any market trend. Good demand was seen for yearling steers as quality was mostly attractive. Yearling heifers were too lightly tested to develop an accurate market trend, however lower undertone were noticed. Yearling heifer quality was mostly plain to average. Unweaned steer calves under 450 lbs sold 5.00-10.00 lower; 450 lbs and heavier sold mostly steady to 5.00 lower. Unweaned heifers under 500 lbs sold mostly steady to 5.00 higher; 500-549 lbs unweaned heifers sold 3.00 lower; heifer calves over 550 sold steady. Quality this sale was mixed from plain to attractive. Demand was light to moderate for heavy offerings. CME positions sold off today with triple digit losses seen on all contracts. Demand was good early in the day but waned as the sale progressed and buyers filled loads. With heavy offerings seen today demand for plainer type cattle was mostly light especially later in the afternoon. A brief rain shower was seen over night and caused pens to muddy slightly. Many sets of calves were slightly dirty today as a result. Market activity was mostly moderate to active. Weigh up cows sold on mostly moderate demand for light to moderate offerings. Feeding buyers trying to fill loads helped keep cow prices near steady early, however as they filled loads cow prices backed off. Feeding cows sold fully steady. Slaughter cows sold steady to 2.00 lower. Weigh up conditions were mostly below average and similar to last week. Bulls were extremely full this sale. Slaughter bulls were too lightly tested to develop any market trend. Young age cows were not well compared. Quality was mostly plain and much lower than last sale. Supply included: 93% Feeder Cattle (59% Steers, 41% Heifers, 0% Bulls); 5% Slaughter Cattle (96% Cows, 4% Bulls); 2% Replacement Cattle (100% Stock Cows). Feeder cattle supply over 600 lbs was 23%.
