Compared to the last week: Hay sold generally steady. Hay movement was light again this past week. Demand was mostly moderate to good. Supplies continue to tighten each week. Many producers site that they have less hay on hand than usual for this early in the season. Some ranchers are feeding hay depending on location. Demand for feeder hay is good as ranchers continue to absorb supplies. Many producers have slowed delivery on hay due to very muddy conditions. High testing hay bids remain unchanged, around \$200-205 delivered to Washington. Demand for high test hay has fallen due to high supplies in Washington, Idaho, and in Oregon. Producers continue to pass bids. Drought conditions fell again this week as some locations saw rain and or snow this past week. Drought conditions fell from 44.03% last week to 38.66% this week.
