

Cotton System Consumption and Stocks

ISSN: 2378-2471

Released April 1, 2024, by the National Agricultural Statistics Service (NASS), Agricultural Statistics Board, United States Department of Agriculture (USDA).

Highlights

January 2024 contained 31 days. **February 2024** contained 29 days.

Extra long staple cotton consumed on the cotton system was 507,000 pounds in February 2024, down 13 percent from January 2024 but up 47 percent from February 2023. February 2024 stocks on hand on the last Saturday of the month totaled 528,000 pounds, down 29 percent from January 2024 and down 67 percent from February 2023.

Total Manmade fiber consumed on the cotton system was 13.3 million pounds during February 2024, down 17 percent from January 2024 and down 55 percent from February 2023. Of the total manmade fiber consumed, 93 percent was polyester staple.

Total number of spindles on the cotton system was 753,000 during February 2024. Active spindles consuming 100 percent cotton was 415,000 in February 2024, up 1 percent from January 2024 but down 21 percent from February 2023.

Consumption and Stocks - United States: February 2024 with Comparisons

Item	February 2023	January 2024	February 2024
Extra long staple			
Consumed

Open-end spindles	240	213	213
Cotton-system spindles active			
Spindles consuming 100% cotton1,000	524	409	415
million hours	296	291	282
Spindles consuming 100% manmade fiber	28	19	22
million hours	14	10	9
Spindles consuming mixtures or blends	369	263	254
million hours	206	149	140

Statistical Methodology

Survey Procedures: Cotton System Consumption and Stocks is part of the Current Agricultural Industrial Reports (CAIR) program. CAIR reports are administered under NASS's Census of Agriculture program. Response to CAIR surveys are required by law (Title 7, U.S. Code). Data are collected from all known mills that consume cotton.

The census universe was determined during operation profile interviews which were completed for each potential facility to identify the presence of cotton consumption and spindle activity in 2014.

In the Cotton and Manmade Fiber Staple survey questionnaires, mills are asked for previous calendar month data on cotton and manmade fiber consumed, stocks and spindle activity. Mills are mailed questionnaires with the options of completing the survey by mail or by Electronic Data Reporting (EDR). For surveys not received in a reasonable amount of time, telephone follow-up is conducted.

Estimating Procedures: Imputation is done for operations with non-response by using historical data and current data relationships. Data for reporting firms are added to estimates for non-reporting firms to obtain National totals.

Revision Policy: Data are revised the following month based on late reports or corrected data. Final figures are published in the annual summary of the following year.

Reliability: Approximately 50 reports are received each month which represent about 95 percent of total spindles. Monthly data can vary due to different firms reporting month to month. Survey data are also subject to non-sampling errors such as omissions and mistakes in reporting and in processing the data. While these errors cannot be measured directly, they are minimized by carefully reviewing all reported data for consistency and reasonableness.

Information Contacts

Listed below are the commodity statisticians in the Crops Branch of the National Agricultural Statistics Service to contact for additional information. E-mail inquiries may be sent to nass@usda.gov

Nick Streff, Acting Chief, Crops Branch	(202) 720-2127
Chris Hawthorn, Head, Field Crops Section	(202) 720-2127
Irwin Anolik – Crop Progress and Condition	(202) 720-7621
Joshua Bates – Hemp, Oats, Soybeans	(202) 690-3234
Natasha Bruton - Barley, Cotton System Consumption, and Stocks, Grain Crushings	(202) 690-1042
David Colwell – Fats and Oils, Flour Milling Products	(202) 720-8800
Michelle Harder – County Estimates, Hay	(202) 690-8533
James Johanson – Rye, Wheat	(202) 720-8068
Greg Lemmons – Corn, Flaxseed, Proso Millet	(202) 720-9526
Becky Sommer – Cotton, Cotton Ginnings, Sorghum	` ,
Travis Thorson – Sunflower, Other Oilseeds	(202) 720-7369
Chris Hawthorn – Peanuts, Rice	(202) 720-2127

Access to NASS Reports

For your convenience, you may access NASS reports and products the following ways:

- All reports are available electronically, at no cost, on the NASS web site: www.nass.usda.gov.
- ➤ Both national and state specific reports are available via a free e-mail subscription. To set-up this free subscription, visit www.nass.usda.gov and click on "National" or "State" in upper right corner above "search" box to create an account and select the reports you would like to receive.
- Cornell's Mann Library has launched a new website housing NASS's and other agency's archived reports. The new website, https://usda.library.cornell.edu. All email subscriptions containing reports will be sent from the new website, https://usda.library.cornell.edu. To continue receiving the reports via e-mail, you will have to go to the new website, create a new account and re-subscribe to the reports. If you need instructions to set up an account or subscribe, they are located at: https://usda.library.cornell.edu/help. You should whitelist notifications@usda-esmis.library.cornell.edu in your email client to avoid the emails going into spam/junk folders.

For more information on NASS surveys and reports, call the NASS Agricultural Statistics Hotline at (800) 727-9540, 7:30 a.m. to 4:00 p.m. ET, or e-mail: nass@usda.gov.

The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers, employees, and applicants for employment on the basis of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department.
