JUNE EGG PRODUCTION AND LAYER NUMBERS DOWN 2 PERCENT

U.S. Egg production totaled 5.48 billion during June 1989, down 2 percent from the 5.57 billion produced a year ago, according to the Agricultural Statistics Board. Production included 4.76 billion for table eggs and 723 million for hatching eggs. The total number of layers during June averaged 266 million, down 2 percent from the 271 million a year ago. June egg production per 100 layers was 2,060 eggs, compared with 2,053 in June 1988.

All layers in the U.S. on July 1, 1989 totaled 266 million, compared with 269 million a year ago. The 266 million layers consisted of 227 million for table or commercial type eggs and 38.3 million for hatching type eggs. Rate of lay per day on July 1, 1989 averaged 68.7 eggs per 100 layers, compared with 68.3 for July 1, 1988, and 68.6 on June 1, 1989.

Laying flocks in the 20 major egg production States produced 4.53 billion eggs during June, down 2 percent from the 4.63 billion produced a year ago. The number of layers during June averaged 221 million, down 2 percent from the 226 million a year ago.

Data for the 30 quarterly States were estimated based on the percent change in the 20 States making monthly surveys. These monthly States accounted for about 83 percent of the U.S. egg production and layer numbers during the 3-month period, March through May 1989.

EGG-TYPE CHICKS HATCHED UP 5 PERCENT

Egg-type chicks HATCHED during June totaled 34.7 million, 5 percent above June 1988. EGGS IN INCUBATORS totaled 27.9 million on July 1, 1989, 17 percent above a year ago.

Domestic placements of EGG-TYPE PULLET CHICKS FOR HATCHERY SUPPLY FLOCKS by leading primary breeders totaled 256 thousand during June 1989, a 30 percent decrease from June 1988.

BROILER HATCH UP 8 PERCENT

The June 1989 HATCH of broiler-type chicks, at 510 million, was 8 percent above June last year. There were 420 million EGGS IN INCUBATORS on July 1, up 7 percent from a year earlier.

Leading primary breeders placed 4.33 million BROILER-TYPE PULLET CHICKS IN DOMESTIC HATCHERY SUPPLY FLOCKS during June 1989, up 13 percent from June last year.

TURKEYS

The turkey EGGS IN INCUBATORS on July 1, 1989, totaled 37.4 million, 15 percent above a year earlier. The 29.1 million POULTS PLACED during June 1989 in the United States were 12 percent above the placements during the same month a year ago.
