

# Soybean Stocks

Crop Reporting Board

Statistical Reporting Service

United States Department of Agriculture

Washington, D.C. 20250

RELEASED: October 10, 1985  
3:00 P.M. ET

SOYBEANS: The September 1, 1985 carryover of old crop soybeans into the 1985-86 marketing year totaled 318 million bushels (8.65 million metric tons), 81 percent above last year but 8 percent below September 1, 1983. Soybeans stored on-farm totaled 144 million bushels (3.91 million metric tons), more than double the stocks of September 1 last year. On-farm stocks account for 45 percent of the soybeans stored in all positions. Off-farm stocks, at 174 million bushels (4.74 million metric tons), increased 62 percent from last year and accounted for 55 percent of the September 1, 1985 soybean stocks.

As indicated by year-end stocks, disappearance during the marketing year (September 1984-August 1985) totaled 1.72 billion bushels (46.8 million metric tons), 5 percent below last year. Indicated disappearance during June-August 1985 totaled 291 million bushels (7.91 million metric tons), 2 percent less than during the same period last year. Final revisions of the 1984 soybean crop show production at 1.86 billion bushels (50.6 million metric tons), virtually unchanged from the previous estimate. The revised National and State production estimates are published in the October 1985 Crop Production report released October 10, 1985.

## UNITED STATES SOYBEAN STOCKS
