No recent sales for an adequate market comparison. Despite sharply higher corn futures demand for yearling feeder cattle was moderate to good. Nebraska feedlots sold live sales at 118.00 and dressed sales from 188.00 to 190.00. Corn planting in full swing across the midlands, a nice shower of rain and warmer temps would do wonders for all planted and perennial forages. Some locations across the two-state reporting area saw morning saw temperatures dip down to near 32 degrees at daybreak. Placing a slight frost in some low laying fields. Supply included: 100% Feeder Cattle (28.9% Steers, 71.1% Heifers). Feeder cattle supply over 600 lbs was 100%. Unless otherwise noted, Feeder Cattle prices FOB based on net weights after a 2-3% shrink or equivalent, with a 6-8 cent slide > 600 lbs. Livestock reported this week originated from KS, NE.
