## Preface

This handbook identifies the usual blooming, harvesting, and marketing dates as well as principal producing counties and major varieties for the fruits and tree nuts covered in the National Agricultural Statistics Service's national program of crop estimates. It updates the information contained in the previous edition of this handbook issued December 1975.

The Field Offices of the USDA's National Agricultural Statistics Service compiled the basic information, prepared the estimates of usual dates, and designated the important areas of production and major varieties for their respective States. Growers and horticultural specialists were consulted to verify information published.

## Definitions

Average Production – Three-year average production data are included to indicate the relative importance of output in each State.

Acreage – The acreage provided is either the 2004 bearing acres or harvested acres depending on the commodity.

Area – Producing areas within States are shown when available.

Usual Dates – Blooming, harvesting, and marketing dates refer to 'usual' dates covering most seasons and exclude exceptionally early or exceptionally late seasons.

Full Bloom – In most instances, the period of time shown covering full bloom indicates when most of the orchards in the specified area usually come into full bloom. In a few instances, a single date represents the average peak date of full bloom for most orchards in that area.

Harvesting Dates – The beginning and ending harvesting dates encompass the period in which most of the fruit is usually picked.

Marketing Dates – Beginning and ending dates for marketing cover the period when the fruit is usually sold by the growers in the specified area. Marketing dates do not represent the period when processed products, such as canned or frozen fruits, move onto marketing channels. For storage crops, such as apples, the marketing period includes growers' sales from storage. For the perishable crops, there may be virtually no lag between harvesting and marketing.

Most Active Harvesting and Marketing Dates – These dates cover the periods when the bulk of the harvesting and marketing usually comes. They do not include the light harvesting and marketing periods at the beginning and ending of each season.

Principal Producing Counties – The principal producing counties are listed in order of importance within each area as determined by the number of trees of bearing age or bearing acreage published in the 2002 Census of Agriculture or more recent data. The actual producing section may cover only part of a county. All counties listed are not necessarily commercially important. The counties shown have been selected according to their relative importance within each State.

Varieties – The varieties listed are the principal ones grown in the State and are listed in alphabetical order.

# Total Acres of Land in Orchards: 2002

## **ACCESS TO REPORTS!!**

---

For your convenience, there are several ways to obtain NASS reports, data products, and services:

### **INTERNET ACCESS**

All NASS reports are available free of charge on the worldwide Internet. For access, connect to the Internet and go to the NASS Home Page at: [www.nass.usda.gov](http://www.nass.usda.gov).

### **E-MAIL SUBSCRIPTION**

All NASS reports are available by subscription free of charge direct to your e-mail address. Starting with the NASS Home Page at [www.nass.usda.gov](http://www.nass.usda.gov), under the right navigation, *Receive reports by Email*, click on **National** or **State**. Follow the instructions on the screen.

-----

### **PRINTED REPORTS OR DATA PRODUCTS**

**CALL OUR TOLL-FREE ORDER DESK: 800-999-6779 (U.S. and Canada)**  
**Other areas, please call 703-605-6220      FAX: 703-605-6900**  
**(Visa, MasterCard, check, or money order acceptable for payment.)**

-----

### **ASSISTANCE**

For **assistance** with general agricultural statistics or further information about NASS or its products or services, contact the **Agricultural Statistics Hotline** at **800-727-9540**, 7:30 a.m. to 4:00 p.m. ET, or e-mail: [nass@nass.usda.gov](mailto:nass@nass.usda.gov).

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
