## CATFISH

Growers in ten selected States sold 88.5 million pounds (live weight) of catfish during 1980, according to the Crop Reporting Board. Total value of sales was \$66.7 million. Foodsize catfish comprised 87 percent of total sales weight followed by the fry/fingerling size group with 13 percent and broodfish with a residual of less than 1 percent.

Foodsize sales totaled 76.7 million pounds during 1980, averaging 1.16 pounds per catfish. Total value of sales was \$53.6 million, averaging 70 cents per pound. Processors were the main sales outlet, receiving 82 percent of the total live weight. Mississippi, the leading State in foodsize catfish sales, contributed 74 percent of the total sales, followed by Alabama and Arkansas each with 11 percent. Foodsize catfish inventory totaled 59.8 million pounds as of February 1, 1981. Mississippi had the largest inventory with 44.7 million pounds, followed by Alabama with 7.64 million pounds.

Fry/fingerling sales totaled 214 million catfish or 11.2 million pounds during 1980, averaging .052 pounds. Total value of sales was \$12.6 million averaging \$1.12 per pound. The primary sales outlet for fry/fingerlings was to other producers of catfish, equaling 88 percent of the live weight sold. Fry/fingerling sales were led by Mississippi with 8.02 million pounds. Inventory of fry/fingerlings as of February 1, 1981, was 277 million catfish or 15.5 million pounds.

Producers were utilizing 63.1 thousand acres of water surface area on February 1, 1981, an increase of 15 percent from the August 1, 1980 survey. Mississippi led in the expansion with a 23 percent increase from August 1, 1980.

## TROUT

Trout growers in nine selected States sold a total of 48.5 million pounds (live weight) of trout valued at \$38.6 million during 1980. Foodsize trout sales accounted for 99 percent of the total pounds sold. In addition, sales of trout eggs totaled 154 million, with a value of \$894 thousand, averaging \$5.80 per thousand eggs.

Foodsize trout sales were 48.0 million pounds during 1980, with an average live weight of 0.66 pounds. The value of sales was \$37.5 million, averaging 78 cents per pound. Idaho, the leading trout producing State, sold 89 percent of the total pounds. Foodsize inventory was 5.93 million pounds on February 1, 1981. The major sales outlet for foodsize trout was to processors with 89 percent of live weight sales.

Fry/fingerling trout sales totaled 6.83 million fish or 409 thousand pounds during 1980, with an average of .060 pounds per trout. The value of sales amounted to \$1.02 million, averaging \$2.50 per pound. Washington was the leading State with sales of 1.98 million fry/fingerling trout during 1980 followed by Wisconsin sales of 1.89 million and California with 1.70 million trout sold. Fry/fingerling inventory was 49.6 million trout which totaled 1.44 million pounds on February 1, 1981. The major sales outlet for fry/fingerling trout was to fee and recreational establishments with 46 percent of the total live weight, followed by 29 percent of sales to other producers.

## SURVEY PROCEDURES AND RELIABILITY

Selected State estimates of catfish and trout inventories as of February 1, 1981, and sales for 1980 were prepared from a survey conducted in late February. A probability sample of about 1,100 was selected from a list of all known commercial producers. In addition, an area frame sample was used to estimate for producers not on the list. Information was collected by mail, telephone, and personal interviews.

Variability in survey estimates caused by sampling is measured by the relative sampling error. For this survey, sampling errors are generally less than 5 percent for combined State estimates of major inventory and sales items. Sampling errors for minor items and State estimates are somewhat higher. A sampling error of 5 percent means that two-thirds of the time the survey estimates are expected to be within 5 percent of the value obtained if all producers had been included in the survey, or be within 10 percent of the complete coverage value 95 percent of the time.
