Cold Storage Annual Summary

Data in this report are end-of-month regional and US totals of various food commodities stored in cold storage warehouses. Some figures have been revised from those published in the monthly "Cold Storage" Report, primarily due to late reports or reporting and tabulation errors. Occasionally, new firms or established firms who have not been responding to our request for information, begin to report. This may cause a shift in the data which is due to the change in the number of plants reporting rather than an actual change in the level of stocks reported.

Data are collected monthly from warehouses artificially cooled to a temperature of 50 degrees Fahrenheit or lower, and whose food products are normally stored for 30 days or more. All food items in these facilities are reported regardless of the number of days stored at the time of the report. Also included are specialized storage facilities meeting the 30 day requirement, such as fruit houses, dairy manufacturing plants, frozen fruit, fruit juice, and vegetable processors, and poultry and meat packing plants. Excluded are stocks in space maintained by wholesalers, jobbers, distributors, chain stores, locker plants containing individual lockers, meat packer branch houses, and frozen food processors whose entire inventories are turned over more than once a month.

Government owned stocks are food products held by the Commodity Credit Corporation, Armed Forces, and other government agencies, including State and local governments. Food held in refrigerated space owned, leased, or operated by the Armed Services is not reported.

Geographic Regions: The regions and States covered in this summary are as follows:

New England: Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut.

Middle Atlantic: New York, New Jersey, and Pennsylvania.

East North Central: Ohio, Indiana, Illinois, Michigan, and Wisconsin.

West North Central: Minnesota, Iowa, Missouri, North Dakota, South Dakota, Nebraska, and Kansas.

South Atlantic: Delaware, Maryland, District of Columbia, Virginia, West Virginia, North Carolina, South Carolina, Georgia, and Florida.

East South Central: Kentucky, Tennessee, Alabama, and Mississippi.

West South Central: Arkansas, Louisiana, Oklahoma, and Texas.

Mountain: Montana, Idaho, Wyoming, Colorado, New Mexico, Arizona, Utah, and Nevada.

Pacific: Washington, Oregon, and California.

Pork Breakdown Changes

In response to requests from the pork industry, the National Agricultural Statistics Service (NASS) began collecting data for boneless hams and loins, butts, and variety meats as of January 31, 1993. The new data series are included in this report for all new categories except hams. The data series for boneless and bone-in hams are excluded due to reporting and coverage problems.

Definitions for the new or changed pork items are:

Loins, boneless: Includes pork tenderloins. These were previously combined with bone-in loins.

Butts: Were formerly included in "other" pork.

Trimnings: Includes 42% regular trimmings, 72% special trimmings, boneless picnic meat, jowls, neckbone trimmings, and blade, cheek, head, and ham shank meat, etc.

Other: Includes ears, tails, feet, neckbones, and snouts.

Variety Meats: Includes tongues, kidneys, livers, stomachs, chitterlings, hearts, and salivary glands. Were formerly included in "other" pork.

Unclassified: Pork unable to be classified in any of the pork categories.

Note: Packaged bacon and sausage and processed items such as hot dogs and luncheon meat are included under miscellaneous cooler or freezer.
