According to the NASS Crop Progress report September 14, 2020, fires continued to burn throughout the state resulting in poor air quality as smoke and haze permeated the air. In Tulare County, harvested fields were being disked and planted for silage or other forage crops. Silage corn was in various stages of maturity. Alfalfa was maturing and harvesting continued. Cotton bolls continued to develop. In the Sacramento Valley, fall ground work continued with discing, chiseling, and land leveling. Dry fertilizer were being applied to some fields. Rice harvest gained momentum, however the smoke has slowed down the ripening of the rice in some areas. Corn continued to be harvested. Sunflower harvest continued in some fields. Alfalfa harvest continued in Fresno County with normal drying conditions.
