Livestock Weighted Average Report for 11/14/2019 - Final

AUCTION

	This Week	Last Reported 11/7/2019	Last Year
Total Receipts:	5,898	5,895	0
Feeder Cattle:	5,318(90.2%)	5,524(93.7%)	0(0.0%)
Slaughter Cattle:	110(1.9%)	45(0.8%)	0(0.0%)
Replacement Cattle:	470(8.0%)	326(5.5%)	0(0.0%)

Special Note: Correction: Removed slaughter bulls entered as feeder bulls

Compared to last week: Yearling steers were too lightly tested last week to develop any market trend; yearling heifers were too lightly tested to develop an accurate market trend, however higher undertones were noticed. Steer calves under 500 lbs sold steady to weak, 500-750 lbs steers sold unevenly steady from 2.00 lower to 4.00 higher. All weights of heifer calves sold mostly 1.00-4.00 lower. Quality this week was mostly plain to average. Several load lots of calves were seen this week, and these offerings sold on mostly moderate to good demand. Demand overall was mostly light to moderate for heavy offerings. With heavy rain seen earlier in the week the yards and country are both very muddy. Calves all showed light to moderate amounts of mud today. Demand for lightweight calves remains limited again this week as west coast grass operations remain out of the market due to dry weather. Calves with fall preconditioning shots continue to sell with the best demand. Premiums for fully preconditioned calves were from 8.00-12.00 . Trucks remain tight this week which limited demand especially late in the sale. Market activity was mostly moderate. Weigh up cows sold on mostly moderate to good demand. Weigh up conditions continue to be in the sellers favor as cows were full again this week. Slaughter cows sold mostly steady to 4.00 higher on boning and lean cows. Breaking cows were too lightly tested last week as most went to feed. Feeding cows sold steady on high quality cows suitable to feed to premium white. Thin fleshed cow destined for short term feed sold mostly 3.00-6.00 lower. Fewer farmer feeder type orders were seen this week allowing packers to buy thin feeding cows lower. Slaughter bulls were too lightly tested to develop an accurate market trend, however higher undertones were noticed. Young age cows suitable to re-breed sold with lower undertones. Quality was mostly average. Supply included: 90% Feeder Cattle (57% Steers, 42% Heifers, 0% Bulls); 2% Slaughter Cattle (86% Cows, 14% Bulls); 8% Replacement Cattle (93% Stock Cows, 7% Bred Cows). Feeder cattle supply over 600 lbs was 31%.

FEEDER CATTLE

STEERS - Medium and Large 1 (Per Cwt / Actual Wt)

Please Note:

The above USDA LPGMN price report is reflective of the majority of classes and grades of livestock offered for sale. There may be instances where some sales do not fit within reporting guidelines and therefore will not be included in the report. Prices are reported on an FOB basis, unless otherwise noted.

Explanatory Notes:

Stage (Cattle) - Represents pregnancy stage (O = open; T1 = 1st Trimester, 1 to 3 months; T1-2 = 1st/2nd trimester, 1 to 6 months; T2 = 2nd Trimester, 4 to 6 months; T2-3 = 2nd/3rd Trimester, 4 to 9 months; T3 = 3rd Trimester, 7 to 9 months; T1-3 = all trimesters, 1 to 9 months; E = Exposed; B = Bred)

Age - Numerical representation of age in years.
