<b>Bales:</b>			
Hay	0	0	50
Straw	50	0	0
<b>Total</b>	<b>50</b>	<b>0</b>	<b>50</b>

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Compared to last week, alfalfa sold fully steady to 5.00 higher, Grass hay steady. Ground and delivered hay steady. Demand is very good for all bales of forage. Several contacts are planning on going up on price next week as there has been a lot of out of state interest on the local market. Nebraska and surrounding states remain dry to very dry and forage is in short supply. Many contacts are planning on baling cornstalks and anything else they can wrap up to sell down the road. Many rumors of extremely high-priced or sold large rounds of alfalfa hay in the central part of the state. But large, longtime contacts cannot confirm the price rumors. Hay market will continue to get strength to the market until widespread rain or winter snow prevails.

Prices are dollars per ton and FOB they field or hay barn unless otherwise noted.
