Direct Hay Weighted Average Report for week ending 7/30/2021

		Volume		
		This Week	Last Reported (7/19/2021)	Last Year
Tons:				
	Hay	4273	1600	3330
	Straw	360	250	0
	Total	4633	1850	3330
Bales:				
	Hay	0	50	50
	Total	0	50	50

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Compared to last week: Demand continues to remain good as rain showers have been scarce and spotty. Trade remained active and competitive and alfalfa and grass hay sold steady to firm. Ground and delivered forages sold mostly steady. Most alfalfa producers are between the second and third cutting. Drying conditions are encouraging firm prices throughout the market.

Prices are dollars per ton and FOB they field or hay barn unless otherwise noted.
