Compared to last week most hay was steady except in the western part of the state large squares of alfalfa sold steady to 10.00 higher. Demand for large squares that are easily transported out of state was very good. With good demand for rounds and other rough type hay. Strong winds blew across the state mid-week. Several reports of flipped pivots and other damage as wind gust at 80 mph was recorded in several areas of the state. Overall, winter weather has been mild, and cattlemen have been able to hold off feeding hay. The dry weather is in the back of a lot of agriculture people minds as they hope this spring good ole' Mother Nature will bring some much needed rain showers across the state.

All sales dollars per ton the field or hay barn unless noted.
