| Total | 60 | 1225 | 0 |

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Compared to last week reported hay sales sold steady. Demand was moderate to good. Most hay haulers stay busy shipping hay across the state or to out of state buyers in Colorado, Kansas and other near by states. Most of the higher selling alfalfa bales are headed to out of state buyers. Dry weather continues across most of the state and the droughtmontior.unl.edu shows a bleak outlook for the near future. But, a wise man said it always rains after a dry spell! On a bright note, with the dry winter, cattlemen are saving hay by not having to supplement cattle that are grazing out in stock fields or set a side pasture for winter needs. All sales dollars per ton FOB the field or hay barn unless noted.
